Spring 2017, COA began to invite DOCs to provide short presentations at our meetings.

- To date, we have had 40 Instructional and Student Service DOCs share the work their departments are doing in Outcomes Assessment.
- The presentations have provided great insight into the problems and solutions found through the OA process.

IEPI Grant

- ▶ Honoraria were paid to our department outcomes coordinators (DOCs) for their work in our new assessment cycle. This practice will continue this practice at the end of Fall 2017 and Spring 2018 for all DOCs who are not Assistant Chairs for their departments.
- ▶ The Summer Assessment Institute facilitated in depth exploration of assessment tools, use of data in OA, Growth Mindset as related to Outcomes Assessment, and the program level OA processes,
- ▶ The Grant has funded a part-time clerical assistant who has helped clean up entries in Taskstream, and entered revised mapping for course and program level outcomes.
- ▶ The Grant has provided funding for Conference and Travel for researchers and outcomes coordinators to professional development events.
- ▶ Additional Tableau licenses were funded for our on-campus researchers.
- ▶ In Progress:
 - ▶ Payment to adjuncts for their contributions to the OA process over the past year.
 - ▶ Assessment Library
