What’s Happening Now
Our Story. Our Spaces.

**Defining Equity**
- At Mesa, equity is a student-centered approach to fostering a culture of success for historically marginalized students. In our roles as faculty members, student services practitioners, staff, and administrators, we pursue equity through principles of inquiry and data-informed decision making.
- We will achieve equity when we see parity in outcomes across racial/ethnic groups, as well as other disproportionately impacted groups within higher education. We work within integrated and equity-minded systems to ensure that everyone has what they need to succeed during their time at Mesa College.

Student Services Monthly Updates are designed to tell our story of providing pathways that inspire, engage and empower our diverse students to learn and succeed. These updates also track our support of Mesa's journey of becoming the leading college of equity and excellence. We encourage you to review our highlights and dig deeper into departmental updates to learn about new employees, innovations, data, events/activities, student success stories, new policies/procedures, and special recognitions impacting the way we serve students. Thanks to our incredible Student Services Team for their tireless efforts in creating the conditions that matter for our students to succeed.

What is Guided Pathways?
Create Clear Curricular Pathways to Employment and Further Education

Help Students Choose and Enter Their Pathway

Help Students Stay on Their Path

Follow Through, and Ensure that Better Practices are Providing Improved Student Results.

Guided Pathways: Pillars
Structured onboarding process including improved placement tests and co-requisite instruction that provide students with clear, actionable, and usable information they need to get to the right start in college.

Programs that are fully mapped out and aligned with further education and career advancement while also providing structured or guided exploration for undecided students.

Proactive academic and career advising from the start through completion and/or transfer, with assigned point of contact at each stage.

Early alert systems aligned with interventions and resources to help students stay on the pathway, persist, and progress.

Instructional support and co-curricular activities aligned with classroom learning and career interests.

Redesigning and integrating basic skills/developmental education classes to accelerate students to college-level classes.
The Mesa Pathways Committee (MPC) uses an integrated, equity-minded, student-centered approach to facilitate student success.

Through structured educational experiences, MPC works to close equity gaps, improve student outcomes and guide students into and through college to the completion of personal, academic and professional goals.

Let’s Kahoot It

Bridget Herrin, Ed.D.
Associate Dean,
Research and Planning
1) Despite a decline from the 2016 study, the 2017 National HOPE lab study still indicates 42% of community college students experienced low or very low food security (limited or uncertain availability of nutritionally adequate and safe foods, or the ability to acquire such foods in a socially acceptable manner.)
2) In the 2017 study, 46% of Mesa College students were housing insecure (a broad set of challenges such as the inability to pay rent or utilities or the need to move frequently.)

3) More than 1 in 10 students at Mesa College experienced homelessness in the last year (being without a place to live, often residing in a shelter, an automobile, an abandoned building, or outside).
