

Greetings Colleagues,

Once again, Mesa College is hosting its 4<sup>th</sup> annual research conference (MCRC) which will be held in the Math and Natural Sciences building (MS) on Friday, May 11, 2018. This conference is open to all SDCCD students who have conducted research last semester or are in the process of conducting some form of research this semester. **The MCRC is open to all forms of research from all disciplines.** This exciting event was a great success the first 3 times and we are looking forward to another celebration of our students' efforts this year.

If your students, or recent former students, conduct any form of research please encourage them to sign up and be willing to act as their mentors.

More information and the online application are available on the link below.

Please note that the deadline for the application is March 16, 2018. All we basically need at this point is a description of the work to be completed along with the student's information and the name of a faculty mentor.

We hope to hear from your students soon!

Kind regards,

Paul Sykes
