

**WOODBURY UNIVERSITY – SAN DIEGO MESA COLLEGE  
ARTICULATION AGREEMENT  
ARCHITECTURE PROGRAM  
Based upon the 2007/2009 Woodbury University Bulletin**

The Woodbury University/San Diego Mesa College Articulation Agreement has been developed in cooperation with faculty and staff at both participating institutions. Its purpose is to provide the prospective Woodbury University student with information on courses needed for each program of study offered at Woodbury and the equivalent courses offered at San Diego Mesa College. The agreement contains three sections:

**Section I: Articulations by Major**

This section provides information on REQUIRED lower division courses (general education and major) for each major and their equivalents at San Diego Mesa College, if any. Below each major is information that is specific to that major. The Woodbury University courses are listed in the left – hand column. Equivalent San Diego Mesa College courses are listed in the right - hand column.

**Section II: General Education Breadth Agreement**

This section includes courses that may be taken to fulfill general education course requirements at Woodbury University. Beginning in the fall of 2000, Woodbury University will be following the Intersegmental General Education Transfer Curriculum (IGETC), with the following exceptions:

- Woodbury University requires the completion of the CSU “Oral Communication” component. The course taken will be subject to review upon evaluation of transcripts at Woodbury University. Courses in interpersonal and cross – cultural communication will not be accepted to meet the oral communications requirement.
- Effective Fall 2008, Woodbury will only accept selected IGETC approved courses to fulfill the critical writing requirement. Transfer students who are awarded credit for these courses will undergo a portfolio review at Woodbury to demonstrate research writing skills. If a student does not pass this review, they will be required to complete an additional course in critical writing.
- Woodbury University requires all students to demonstrate competency in information literacy. This requirement can be met through successful completion of approved course work at San Diego Mesa College or through the passing of an examination offered at Woodbury University.
- 
- Woodbury University does not require the Foreign Language component.
- General Education courses that serve as preparatory courses for individual majors are required EVEN IF all other IGETC requirements have been met. Please refer to Section I for a listing of required courses by major.

**Section III: Basic Skills Courses**

This brief section includes courses, along with their equivalencies at San Diego Mesa College, that are required of all Woodbury University students that are not included in the other two sections

**Disclaimer Statement**

Courses taken by the prospective Woodbury student not listed in this agreement are subject to review by the Registrar’s Office at Woodbury University. This agreement is for transfer. The application of credit is for use **from** Mesa **to** Woodbury only.

For students interested in attending Woodbury University's San Diego campus, a portfolio review is not required prior to placement in the Bachelor of Architecture program for those students having successfully completed the above courses with a GPA of 3.0.

For students interested in attending Woodbury University's Burbank campus, a portfolio review is **STRONGLY RECOMMENDED** for all students.

A portfolio review is **REQUIRED** for students who have less than a 3.0 GPA in their architecture courses.

\*To complete IGETC Area 3 – Arts and Humanities – an approved Humanities course must be taken as the third course option.

+Physics 2 will meet the requirement for the Biological Science course for Architecture students **ONLY**.

**WOODBURY UNIVERSITY RESERVES THE RIGHT TO REQUIRE A PORTFOLIO REVIEW FOR ANY STUDENT APPLYING TO THE BACHELOR OF ARCHITECTURE PROGRAM, REGARDLESS OF THE CAMPUS THEY WISH TO ATTEND.**

When transferring to Woodbury University, it is important to note the difference between **ACADEMIC** placement (based on number of transfer units) and **ARCHITECTURAL** studio placement (the studio level the student is placed in). While students may qualify to enter Woodbury University's architecture program as a 3<sup>rd</sup> year student, this does not guarantee that the student is an **ACADEMIC JUNIOR**. Academic placement is dependent upon the number of units that are transferable to Woodbury University. If a student meets the transferable unit requirements to be considered an **ACADEMIC junior** (60+ units), this **DOES NOT** guarantee student placement in the 3<sup>rd</sup> year of architectural studies. Studio placement is dependent upon the successful completion of preliminary course work and the outcome of a portfolio review.

# Section II: General Education Breadth Agreement

\*Course is listed in more than one area but shall not be credited in more than one area.

+ARCH 126 – History of Architecture I – will fulfill one Area 3, Arts course requirement. ARCH 127 – History of Architecture II – does NOT fulfill an General Education requirement; it is considered a major specific requirement.

Courses appearing in **bold face** currently do not carry IGETC approval or carry IGETC approval but in another area. Courses appearing in more than one area can only fulfill one area requirement; a single course cannot fulfill two area requirements. Students should review which general education courses are required for their major PRIOR to selecting their general education courses. Each major contains general education courses which fulfill both general education and major requirements.

# Section III: Basic Skills Course Equivalencies

<b>WOODBURY UNIVERSITY    BASIC SKILLS COURSES    SAN DIEGO MESA COLLEGE</b>				
PREP	<b>CO 105</b>	Information Literacy	<b>LIBS 101</b>	Information Literacy & Research Skills
PREP	<b>MA 049</b>	Elementary Algebra	<b>MATH 95</b>	Elementary Algebra
PREP	<b>MA 140</b>	Intermediate Algebra	<b>MATH 96</b>	Intermediate Algebra

The previously listed courses are required of all students who attend Woodbury University. The competency for these courses can be demonstrated in the following ways:

- Through successful completion of the equivalent course at San Diego Mesa College
- By receiving a passing score on placement exams required by Woodbury University at the time of student orientation
- By successfully completing any course that is at a higher level (i.e. if College Algebra has been completed with a grade of “C” or better, a student will not need to retake either Elementary or Intermediate Algebra)

Academic elective credit will not be granted for Elementary Algebra; a waiver of the course will be granted if the course was taken and passed with a grade of “C” or better within the last academic year (two previous semesters). Academic credit will be granted for all other courses successfully completed with a grade of “C” or better. Intermediate Algebra must have been completed within the last two years for credit to be awarded, unless a higher level mathematics course has been successfully completed.

## **BLOCK TRANSFER OF GENERAL EDUCATION:**

Transfer students with an earned Associate of Arts or Associate of Science degree in an academic major from a regionally accredited college in the U.S or a degree from an international academic institution with English as the language of instruction that is equivalent to a U.S. degree have met Woodbury University’s lower-division general education requirements with the exception of courses in academic writing. Students must satisfy all requirements in the major program including lower division general education courses. In addition, students must satisfy all upper-division general education requirements and meet all other admissions and graduation requirements and competencies of the university.

Degrees/credits earned more than eight years before admission or readmission will be accepted to meet general education and university graduation requirements, as well as major requirements, at the discretion of the university.
