News from UC Davis

Hello all,

More late breaking news. In the past couple of weeks, the geography department has eliminated its four lower division courses, of which only one, Geography 10, is a requirement for the major. This does have broader impact beyond Geographic Studies. Four other majors also use the four lower division courses as one of many courses to meet specific lower division requirements. The majors are: African-American Studies, Landscape Architecture, Nutrition Science, and Sociology. In every major, there are other courses available to meet the given requirement and thus should have minimal impact on your students' proper preparation for transfer.

We will be removing from ASSIST the following courses: Geo 1 - Physical Geography, GEO 2 Introduction to Cultural Geography, GEO 2G Introduction to Cultural Geography: Discussion, and GEO 10 The World's Regions. Students who completed the course(s) by spring 2006 will receive subject credit. Your community college courses are still transferable courses and students who take these courses in future terms will continue to receive elective credit.

Please note the following San Diego Mesa College courses that will be affected:

UC DAVIS COURSE

GEOG 1 Physical Geography
GEOG 2 Intro to Cultural Geography
GEOG 10 World's Regions

SD MESA COURSE

GEOG 101 & 101L Physical Geography/Lab
GEOG 102 Cultural Geography
GEOG 104 World Regional Geography

Source: Articulation Agreement as listed in ASSIST, effective during the 05-06 academic year.

News from CSU Chico

Chico State is one of four universities in the United States that will be offering a joint-initiative Concrete Industry Management major. Information on the proposed program is available at <http://www.csuchico.edu/cim>. If you click on course requirements for the major, you will see the lower division requirements listed. The courses identified with the Prefix CIMT have yet to be developed, but interested students can complete the support courses affiliated with the major as well as those lower division courses required for the mandatory minor in Business Administration.

CSU/UC Articulation Updates

Please note the following CSU and UC articulation updates as published in ASSIST

California State University

Long Beach

- May 6, 2006

Added new agreement:

CSULB
ENGL 184

MESA
ENGL 105

- June 7, 2006

The following has been disapproved for continued articulation. The agreement will end at the end of Summer 06.

CSULB
DESN 244

MESA
INTE 115

Los Angeles

- May 26, 2006

New Articulation:

CSULA
CHDV 210

MESA
CHDV 175

CSU/UC Articulation Updates - Continued

Articulation Denied:

CSULA
CHDV 220

MESA
CHDV 176

Monterey Bay

- May 2, 2006

Transfer agreement update STAT 200 with BIOL 200, MATH 119 or PSYC 258

CSUMB
STAT 200

MESA
BIOL 200,
MATH 199 or
PSYC 258

Northridge

- May 17, 2006

Republish to reflect approval of:

CSUN
PSY 200

MESA
PSYC 230

San Bernardino

- May 5, 2006

New articulation:

CSUSB
CSCI 129

MESA
CBTE 180 +
CISC 150

(acceptable substitute)

CSCI 292
ENG 210+211
ENG 212+213

California State University Lower Division Transfer Pattern (LDTP)

Please note the following statement regarding the LDTP as provided by the California State University Office of the Chancellor. Participation in the LDTP project will require faculty involvement. More information will be provided during the 2006-2007 academic year. If there are questions, please contact the Articulation Office by calling ext. 2639 or by email at: jparker@sdccd.edu.

The Lower-Division Transfer Pattern (LDTP) project, sponsored by the California State University (CSU) and supported by the California Community Colleges, presents potential transfer students with the most direct path to a bachelor's degree in the CSU system. The LDTP project provides a set of "road maps" for students to follow that will ensure appropriate academic preparation and that will decrease time to graduation once LDTP students enter the CSU. Students may enter into an LDTP agreement up to the time they have completed 45 transferable units. Students who elect to follow the LDTP option will receive the highest priority for admission to a CSU campus.

"Highest priority for admission" is defined as a written guarantee of admission to a particular CSU campus and major, and it goes into effect when both the student and the CSU campus ratify an LDTP agreement. The guarantee is subject both to satisfactory completion of the agreement requirements and to the campus's ability to accommodate the student. Students will be asked to complete successfully a specified set of general education courses and major courses that will be common to all CSU campuses offering that major, and they will be asked to complete successfully an additional set of courses identified by the particular CSU campus named in the LDTP agreement. The coursework in the systemwide and campus-specific LDTP pattern will total at least 60 units, the number needed to transfer to CSU as an upper-division student.

Through CSUMentor and ASSIST, students and counselors will be able to find road maps detailing coursework preparation by CSU campus and major.

Important Dates

06-07 UCTCA Submittal	August 2006
