## GREETINGS MESA COMMUNITY,

The Mesa Career Connect newsletter is intended to connect Mesa students, staff, and faculty to our events and resources. Please share this newsletter with students and refer them to us. We are housed in the Student Services building 1400 (3rd floor, room 306).

## WHO WE ARE?

We are here to help students with finding employment all year round. Now is the time to connect students to job searching resources available through the Career Center. Students may schedule and appointment with a Career Counselor for assistance with the job search process. In addition, one of the resources offered to students for free is the online job board called Job Network accessible on our website. For students who are seeking an internship, the Career Center has an Internship Resource Handbook in the Jobs & Internships section of the Career Center Website. In this newsletter, you will find information regarding recent opportunities listed on the Job Network and events.

## STUDENTS & ALUMNI!

If you haven't registered yet get connected! Register for Job Network today! Use your CSID# to create your free account and get started. Job Network is the free online job board for San Diego Mesa College students and alumni.

Students may search for the following online job listings on the Job Network located in the "Jobs & Internships" section of the Career Center website. Under the "My School's Jobs" tab within the Job Network, students can search a listing using the special "Job ID," the company name, or job title.
