

Create Learning Objectives

If the student needs to go back and review the SMART YouTube video, this is the time to do it. Students will complete a SMART Learning Objective [Worksheet](#). This worksheet is used by the student and supervisor/mentor to create the Training Agreement for the course. The Mesa Work Experience [Website](#) and the instructor will provide other resources to help the student be successful in writing the required three learning objectives.

Once the final draft of the learning objectives have been written on the Training Agreement, the instructor will visit the student's work site to review and finalize the document with both the student and supervisor. It is at this time the Training Agreement is signed and dated by all parties. Any questions relating to the course will be answered at this time.
