Proposed Resolution: Rosa Parks Way

Whereas, Rosa Parks has a special meaning to Mesa College. As stated on the Mesa College website: "The Rosa Parks memorial project was designed specifically to highlight the quiet strength that all people have within them to take a stand against repression and injustice. The memorial is unique in that the design incorporates a functioning transit stop and an adjacent reflection area."

Whereas, Rosa Parks' legacy goes beyond a bus stop. She rode the bus.

Whereas, the two-lane bus route that starts at Armstrong Street and goes west to join Mesa College Drive, passing between the Continuing Education and Allied Health Buildings, has no name.

Be it resolved that San Diego Mesa College requests the unofficial designation of Rosa Parks Way to this special roadway, to further recognized Rosa Parks legacy and inspiration to our college and our students.

Proposed by: Carlynne Allbee

Note: I am reaching out to the City for clarification.

Update: Apparently each Council District has the resources to adopt or name two Honorary Street Names each year. Near Mesa College, for example, there is already one names for Mark Hamil – he lived there in his youth.
