## Chemistry Peer Mentor Edgar Hotard

---

Hi everyone, my name is Edgar, and I'm excited to be one of your peer mentors for Chemistry 200 this semester. I am currently planning on pursuing a career in medicine, and I'm planning to apply to medical school in 2026.

This is only my second semester at Mesa, but I've really appreciated the supportive and welcoming environment here. I think that STEM courses can generally be particularly challenging, and I appreciate that this program exists to provide students with just a little bit of extra support.

Outside of school, I work part-time as a mental health therapist. In my free time, I enjoy staying active by going to the gym and hiking.

I'm looking forward to meeting all of you and working together this semester.
