## **Biology Peer Mentor Gabriella “Gabby” Manansala**

---

Hey Everyone!

I am Gabriella Manansala, and I am so excited to be one of your Biology 210B Peer Mentors. I am a Biology major, and in the Fall of 2025, I plan to transfer to UCSD and my goal is to enroll in their Molecular and Cell Biology Program. My ultimate goal is to pursue a career in Forensic Pathology.

I am entering my 3rd year at Mesa, and my passion for Biology and learning has grown so much throughout my time there. I have learned a lot about myself, and ways to be the most successful in my academic experience. I am looking forward to sharing this with my peers.

On Campus, I am also the secretary for the Biology Club, I value community, especially in the STEM field. Feel free to reach out to me there, as well as in the STEM Center.

I was born and raised on the beautiful island of Guam and moved to San Diego in 2022. During my free time, I enjoy trying out new coffee shops, going to concerts, and watching sunsets on the beach.

I am looking forward to being someone you can count on, and help you excel throughout your academic journey!
