Chemistry Peer Mentor Gale Bruell

Hi, I'm Gale! I'm a San Diego native. I've been at Mesa for three awesome semesters, and I have two left before I transfer.

I'm a Biology major, because I'm pursuing a career as an aquarist in public aquariums—but I love Chemistry so much, I'm planning on doing a Chem minor as well.

I chose my profession because I'm passionate about the environment, research, and science communication.

For that reason, I'm very excited to be your peer mentor this Fall! I hope I can help take the mystery out of Chemist(e)ry, and maybe even show you why I think it's so cool.

When I'm not on campus, I can be found volunteering at the Birch Aquarium, Swing dancing, or biking around San Diego. I'm also the president of the SDSU Zoology Club, and a proud rabbit parent.

I love to share my knowledge of the natural and academic worlds, so please feel free to ask me questions about my career, education and hobbies!
