## Math Peer Mentor Elizabeth “Libby” Hedges

---

Hello! My name is Elizabeth Hedges (She/Her) but I go by Libby.

I'm currently in my third semester at mesa. I'm a biology major planning on transferring to UCSD.

I plan on becoming a science teacher working at the high school level or higher. I enjoy helping people so I'm really looking forward to meeting new people and helping when needed.

Some things I enjoy doing outside of school are swimming, baking, playing video games, and traveling.

I have not been involved with anything on campus yet but excited to get involved in the school's community. I look forward to helping in any way I can!
