Physics Peer Mentor Nate Corbett

Hello, my name is Nate Corbett and I was born and raised in San Diego.

I have been through several majors but finally ended up wanting to study physics. As of fall 2024 I will be a peer mentor for physics 195 but I have also mentored for physics 180A and 180B.

I hope to transfer to UCSD next fall for physics and possibly a minor in environmental sciences. Aside from physics I love all things math and science.

Outside of school I enjoy cooking, playing games, and camping. My favorite sport is parkour as well.

I look forward to working with you all and I hope that we can all learn some cool physics together.
