## Math Peer Mentor Tsitsi Smart

---

Hi everyone, I'm Tsion-Aduesa Smart but please feel free to call me Tsitsi (Cece)!

I'm a second-year student at Mesa College, planning to transfer to UC Berkeley to study Mathematics. I've completed Calculus 1 to 3, and Discrete Mathematics with Professor Michael Brown. He is probably my favorite teacher so far.

Currently, I tutor at Mathnasium, working with students of all ages and learning styles! My goal is to become an actuary, and perhaps a professor someday—Dr. Smart has a nice ring to it.

Outside of academics, I enjoy drawing, crafting, and playing video games. I'm very active on campus, so feel free to say hi if you see me around! I am also a member of Active Minds on campus, which I guess makes sense as to why I also tutor. I find great joy in seeing others regain their confidence, which is a big part of why I continue to help them. It makes me happy to see them succeed too.
