

SAN DIEGO MESA COLLEGE

Equity, Excellence, Éxito

Physics Peer Mentor Vyvian Pham

Hi everyone!

My name is Vyvian. I was born and raised in San Diego and graduated from SDSU in 2022 with a degree in Business Administration.

After working in real estate and banking for a few years, I decided to return to school for a career change.

I enjoy baking, playing the guitar, and arranging flower bouquets.

My goal in the future is to become a dentist. I took Physics 195 last spring, and this will be my first time as a peer mentor.

I'm here to help with any questions you might have. Looking forward to a great fall semester!
