MESA COLLEGE

Program Review

Summary and Reflections with Unit Goals, Action Plans, and Updates

Instructional Program - Art/Fine Art (ARTF)

Executive Summary

Describe the successes and challenges your unit has faced since the last comprehensive review.

The Fine Arts Department, particularly the hands-on Studio Art classes, faced significant challenges during 2020 through early 2022, with most courses being taught fully or partially online. Despite those challenges and the limits placed on faculty, staff, and students by the pandemic, our faculty and staff members found creative solutions and offered dynamic learning experiences for our Fine Arts and Art History majors, and the many students across the campus who take any of our 15 Gen Ed courses. Some examples of the ways our Fine Arts department Faculty managed to work around the limits of the pandemic include:

- ? A Drive-Through Art Exhibit organized and managed by Fine Arts and Museum Studies Students.
- ? Outdoor art projects like Steamroller printing
- ? Weekly faculty and staff drop-in video meetings where we could share discoveries about online teaching and get help and support from one another
- ? A system for Ceramics courses where students could take home a pottery wheel, work at home, and then drop works off on campus to be put in the kiln.

These are just a few examples of the many successes and creative solutions Fine Arts faculty developed in the time since our last comprehensive program review in 2019.

In recent years, our department's enrollment numbers have been strong overall. Our Spring 2023 total enrollment in Fine Arts, for example, is 18,361 compared to a total of 17,871 in Spring 2022.

Our challenges, over the past few years have mostly fallen into three categories:

- Pandemic-related adjustments (those have mostly been resolved or are no longer relevant)
- Inadequate equipment and needed facilities repairs that have been difficult to get accomplished (this continues to be a problem, particularly for the resource-intensive studio art courses). We have not had a budget increase in many years, but the costs of supplies for our courses keep rising.
- Loss of two full time faculty members making departmental tasks and student mentoring difficult to accomplish for the remaining contract faculty.

If applicable, describe any major curricular or service changes your unit has engaged in and the impact of those changes since the last comprehensive review.

One major change has been the retirement of two full time faculty members in our 2-D program, one in 2020 and one in 2022. We have not been able to have those positions replaced, and we've had to hire six new adjunct professors over that period to help us meet our students' needs.

If applicable, describe the impact of any new resources (human, fiscal, etc) on the unit and/or action plan implementation.

If you assess OUTCOMES, please confirm that the outcomes have been reviewed for accuracy. If you do not assess Outcomes, skip this question.

Data Reflection

Trends observed in program/service area's data.

In recent years, our department's enrollment numbers have been strong overall. Our Spring 2023 total enrollment in Fine Arts, for example, is 18,361 compared to a total of 17,871 in Spring 2022.

Our program success rate is strong: the average program success rate for fine arts over the past 5 years was 75.9% compared to the campus-wide average of 73.2%. Over the past two years our overall retention rate as increased by two points, and the most recent year of data shows it at 88.7 %.

In 2019, our department reached our highest number of degrees conferred, at 43. That number dipped somewhat during the first years of the pandemic, and in 2021-22 (the most recent year we have this data for) we conferred 31 degrees. In order to grow are program and insure that more students are completing degrees we need to replace the full-time faculty members that retired, so that all courses students need to graduate can be offered more regularly and in a range of modalities.

Describe any equity gaps in the data. Are there differences and/or patterns observed by demographics (e.g.race/ethnicity, gender, age, etc.)

Our data shows a troubling and persistent 12.8 % equity gap our success rates for Black/African American students and a 4.5% equity gap for Latinx students. These numbers are similar to campus-wide equity gaps. Our fine arts department data for first-generation college students does not indicate any significant equity gap.

Describe the discussion(s) that took place about the unit's learning outcomes assessment data.

Our learning outcomes discussions over the past few years have mostly related to ways of handing remote-learning for Studio Art classes while still ensuring that students meet the objectives for the program and for each course. This year's outcomes focus has been more granular, as each discipline lead has been working on verifying the accuracy of their course's outcomes across the various sites and documents where they are published.

Practice Reflection

Describe current practices your program/service area has engaged in that you believe impact the above data trends and equity gaps.

In 2019 our department adopted a Student Success plan that focussed on closing the equity gaps noted above. When it comes to Studio Art classes, many aspects of our Student Success plan have to do with making art supplies and materials more readily available for students, offering dedicated space and time in our studio buildings for students to work, and engaging students with community arts activities, exhibits, and speakers that featured Black and Latinx artists and art workers.

That sort of organizing of supplies, speakers, events, and community engagement stretches far beyond the scope (and hours), of our individual classes. It requires full time faculty support. Amidst the upheavals of the pandemic and the subsequent retirement of two full time faculty members, we've struggled to maintain and grow those programs that are so important to us reaching our equity goals.

Our Fine and Performing Arts Committee (a committee made up of mainly full-time faculty and staff members) has worked to bring more than a dozen artists, art workers, and other creative professionals to our campus to

Summary and Reflection

speak to students and our community over the past two years. Our department's Mesa College Art Gallery, and our World Cultures Art collection also provide multiple invaluable opportunities for students to meet with diverse artists, engage with artworks from all over the world, and get hands-on experience with curating, maintaining, and cataloging art objects.

These opportunities for students to engage with diverse fine arts professionals and get hands-on experience is so valuable for our disproportionately impacted groups, and they are an important part of how our department will meet our equity goals.

Making art, studying art, and working collaboratively in hands-on studio art classrooms helps students build empathy. A 2017 study of Medical Students published in the Journal of Internal Medicine, for example, showed that university students exposed to the arts demonstrated higher levels of "positive personal qualities." (Mangione, S., Chakraborti, C., Staltari, G. et al. Medical Students' Exposure to the Humanities Correlates with Positive Personal Qualities and Reduced Burnout: A Multi-Institutional U.S. Survey. J GEN INTERN MED 33, 628–634 (2018).<https://doi.org/10.1007/s11606-017-4275-8>)

A robust, diverse set of Studio Art offerings is good for our whole campus, offering high-quality opportunities for students from all majors to develop those "positive personal qualities" (like empathy and compassion) that that 2017 study cites.

The Fine Arts Department as a whole has developed several ongoing campus-wide projects and resources that are dedicated to fostering a culture of equity-mindedness and engaging students across disproportionately impacted groups. In the arts, one simple way to work towards closing equity gaps is to expose students from disproportionately impacted groups to artworks and artists that are culturally relevant for them. Our World Culture Art collection has exposed students from across the campus to African Art, and has provided hands-on learning experiences with curating exhibitions, preserving objects, and cataloging archives for students from Art History courses, Museum Studies, and a range of other programs. Popular exhibitions of artworks from the World Cultures art collection engaged students and community members and modeled our campus's commitment to diverse representations. Two recent examples include the February 2023 Africa in Context exhibit at the Mesa College Gallery and the Summer 2022 Echoes of Africa exhibit at the San Diego Central Library.

What other factors (internal or external) might also impact the above data trends and equity gaps?

As noted above, the Fine Arts department plays a major role in shaping our campus culture, particularly through our Art Gallery, the World Cultures Art collection, the events organized by the Art Club and the Fine and Performing Arts committee, and the student gallery. But despite that strong role (and the need for full time faculty members to sustain those efforts) we have not been granted replacements for our retired full time faculty members, or the much-needed ILT position for the World Cultures Art Collection. We've requested those positions 3, and 2 years in a row respectively.
