Program Review

Summary and Reflections with Unit Goals, Action Plans, and Updates

Instructional Program - Marketing (MARK)

Executive Summary

Describe the successes and challenges your unit has faced since the last comprehensive review.

Perhaps the greatest success the MARK Program has experienced during the most recent evaluation cycle is the continued absence of equity gaps. MARK faculty believe that this success can be attributed to the multiple approaches (described below) that MARK Program faculty employed during the period.

With regard to challenges, MARK Program faculty were not able to proceed with plans to update the Program by developing and launching a new digital marketing course, which was discussed during the last Program Review cycle. This was in part due to the other challenges that the School of Business & Technology (BT) faculty and administration faced during the period, most of which were created by the still-raging COVID-19 pandemic. It was necessary to prioritize tasks in order to best serve students, and development of the new course was not a major priority compared to other, more urgent work that had to be done.

In addition to the above, new challenges associated with developing and launching the course were identified during the period that must be resolved before work on it can proceed. These challenges include, but are not limited to the fact that, since the MARK Program has a CTE TOP code, MARK faculty must demonstrate that there is a local workforce need for digital marketers that is not already being met by multiple other local colleges/universities before receiving authorization from administration to create the course.

One major obstacle to demonstrating that need has been the fact that all of the SOCs currently associated with the MARK Program TOP code pertain to areas of marketing other than promotion and advertising, and digital marketing primarily comprises digital promotion and advertising. Because of this, the labor market data that MARK faculty have been able to obtain from the San Diego Regional Workforce Partnership for "marketing" have not been relevant to or supportive of the need for digital marketing workforce skills.

The pandemic (and the exigencies it created for students, faculty, and administration) is now waning, however, and discussions with CTE leadership at the college and district levels regarding the SOC issue were recently initiated. MARK faculty hope that these changes will support development of the course and the associated updating of the MARK Program..

If applicable, describe any major curricular or service changes your unit has engaged in and the impact of those changes since the last comprehensive review.

N/A

If applicable, describe the impact of any new resources (human, fiscal, etc) on the unit and/or action plan implementation.

N/A

If you assess OUTCOMES, please confirm that the outcomes have been reviewed for accuracy. If you do not assess Outcomes, skip this question.

Summary and Reflection

Data Reflection

Trends observed in program/service area's data.

Overall MARK Program enrollment declined year to year between 2017/18 and 2021/22, with headcount dropping from 365 in 2017/18 to 217 in 2021/22. This represents a decrease of about 40% in Program enrollment, and aligns with the enrollment decline experienced by the College as a whole during this period. The data indicate that the largest annual decreases between 2017/18 and 2021/22 occurred in the last two years, between 2019/20-2020/21 (18%) and 2020/21-2021/22 (20%). The decline represents a continuation of the pattern observed and discussed in the 2021 MARK Program Review, which detailed the impact of the COVID-19 pandemic on student enrollment.

Interestingly, the number of MARK Program awards for Fall 2021/22 was 7, which is the highest number since 2015/16, when the number was also 7. It's worth noting that 2020/21 awards were also relatively high, at 6, representing a considerable increase from the single MARK Program award recorded for 2019/20 and the 7-year annual average of 4.4 awards.

Perhaps the most interesting thing about the MARK Program awards growth is that it took place during the two years of greatest overall decline in MARK Program enrollment, when the Program was the smallest it has been in five years. The fact that more MARK degrees and certificates have been awarded in the last year despite shrinking Program size indicates that a larger percentage of students enrolled in the MARK Program is receiving MARK awards. This, along with the absence of equity gaps, suggests that MARK Program efforts to use resources effectively to support equity and student achievement are succeeding.

As regards MARK Program course outcomes, data from the College Course Outcomes Dashboard indicate that, for the Spring 2021, Fall 2021, and Spring 2022 semesters, the overall MARK Program course retention rate was 88%, and the overall MARK course success rate was 70%. For the same three semesters, the overall course retention rate for the College was 87%, and the overall course success rate was 73%. These data indicate that MARK Program course retention and success rates during this period aligned with those of the College as a whole.

In terms of ethnic representation within the MARK Program during the 2020/21-2021/22 period, the largest groups overall were the White (41.1%) and Latinx (36.5%) categories. These were followed by the Multi-Ethnicity (7.5%), Asian (6.2%), Filipino (3.1%), and African American (2.9%) categories. The groups with the smallest representation were the Native American (0.6%) and Pacific Islander (0.4%) categories. These data likewise align with those of the College as a whole.

Describe any equity gaps in the data. Are there differences and/or patterns observed by demographics (e.g. race/ethnicity, gender, age, etc.)

No equity gaps in MARK Program awards are recorded for 2021/22. As mentioned earlier, the continued absence of equity gaps in the MARK Program suggests that MARK faculty efforts to support equity (via methods discussed below as "current practices") have been successful. MARK faculty therefore plan to continue these efforts.

Despite the absence of equity gaps, however, MARK faculty remain focused on finding ways to encourage African American (AA) students to enroll in the MARK Program. Enrollment data indicate that AA annual student enrollment declined from 6.4% (headcount 22) in 2018/19 to 2.6% (headcount 7) in 2020/21, an overall reduction of 3.8 percentage points. Since communities of color were in general disproportionately impacted by the pandemic, MARK faculty find this decline—which occurred during the height of the pandemic—unsurprising, though dismaying.

In 2021/22, AA percentage enrollment in the MARK Program began an apparent recovery, climbing to 3.2%. Closer examination of the data, however, revealed that AA headcount for both 2020/21 and 2021/22 remained consistent at 7. This indicates that the percentage increase reflects the continued annual shrinkage of overall MARK Program enrollment, rather than an increase in the number of AA students enrolled in it.

MARK faculty continue discuss this issue and seek ways in which to encourage AA (and other non-white) students to explore marketing as a field of study and potential employment. We hope that, by updating the MARK Program

Summary and Reflection

to include a digital marketing course and eventually a digital marketing certificate program, we can increase its appeal to AA (and other) students, especially those in the social media savvy Gen Z cohort.

Describe the discussion(s) that took place about the unit's learning outcomes assessment data.

Discussion about learning outcomes assessment data during 2021/22 uncovered the fact that all MARK outcomes had been assessed at least once--and some twice—during the cycle. In addition, all MARK courses during the period either met or exceeded their target assessment goals. Currently, MARK outcome assessment for the next Program Review cycle is underway.

Practice Reflection

Describe current practices your program/service area has engaged in that you believe impact the above data trends and equity gaps.

Three means of addressing equity issues and supporting student success that MARK Program faculty employed during the past cycle include: 1. Monitoring of individual student performance in MARK courses, as indicated by coursework completion patterns and scores on completed assignments; 2. Conducting email or face-to-face outreach to individual students whose coursework completion patterns and or grades suggest the existence of impediments to academic success, with the objective of ascertaining what may be causing them to miss assignments or score poorly on them; 3. Responding to information provided by students about such impediments by connecting them with campus resources such as the Resiliency Fund, Tutoring, the Writing Center, etc., designed to mitigate the identified difficulty, and also by modifying course design, as appropriate, to eliminate obstacles created by course policies or assignment scheduling.

MARK faculty have observed the effectiveness of these methods in supporting equity (i.e., there have been no reported equity gaps in the Program over the last two cycles), and therefore plan to continue implementing them.

What other factors (internal or external) might also impact the above data trends and equity gaps?

MARK faculty have observed that BT has not offered two of the four courses that currently make up the MARK Program—i.e., MARK 130—Advertising Principles and MARK 105—Personal Selling--for several consecutive academic years. Consequently, MARK students who needed those courses to complete their programs of study had no choice but to enroll in them at institutions other than Mesa College.

Our understanding is that this issue is the result of difficulty in finding qualified adjunct faculty to teach the classes. Since MARK Program enrollment is too small to justify seeking an additional contract faculty member to teach them, however, MARK faculty believe that resolution of this staffing challenge should be prioritized moving forward. Locating and hiring qualified adjunct instructors will assure that MARK Program students are not forced to go elsewhere to access the MARK courses they need to graduate.
