MESA COLLEGE

Program Review

Summary and Reflections with Unit Goals, Action Plans, and Updates

Leadership - Dean, Health Sciences and Public Service Office

Executive Summary

Describe the successes and challenges your unit has faced since the last comprehensive review.

Successes:

Many of the programs in allied health boast high retention rates and job placements in field of study. The healthcare field overall has steady growth of upwards of 15% for careers that pay a livable wage. Some highlights:

- MEDA student success rates increased over the past year from 87% to 94% in 2021-2022
- Integrated technology to improve student learning and develop critical thinking necessary for employment in a healthcare setting (PhysioU, ICE Videos, electronic documentation).
- Positive legislation guaranteeing the permanence of existing Baccalaureate degrees at the California Community Colleges. Our industry partners, alumni, students, administrators all contributed to providing necessary information to allow this to be a permanent degree offering.
- DENA has gone low-cost or no-costs for textbooks
- Opening of the Health and Wellness Community Clinic
- Increased AS degrees from 131 to 173 year over year
- Increased BS degrees from 28 to 34 year over year

Challenges:

Tina Recalde, who previously served as the Dean of HSPS, has relocated to a different role, creating a vacancy for both a new Dean and an acting Dean. The full-time position is currently open and needs to be filled.

With a focus on cohort-based retention, programs should aim to enroll more students than needed, anticipating that some attrition will occur over time.

Our accrediting body has identified specific facility improvements that must be made to maintain the program's good standing.

Additional resources are needed to expand the hours of operation for the Health and Wellness clinic.

If applicable, describe any major curricular or service changes your unit has engaged in and the impact of those changes since the last comprehensive review.

- Community Clinic for dental has given the students and the neighboring community the opportunity for no cost dental services that included full mouth X-rays, coronal polishing, pit and fissure sealants. For both PTA we have been able to assist both students and underinsured members of the community.
- Added RADT 70 (orientation to Xray Equipment) prior to starting rotations
- May 2020 Vet tech program became AVMA accredited
- Healthcare 401 upper division comm class added to HIMS
- NUTR piloted 4 week courses for 150 and 153 with positive results (2022-2023). Classes average a fill rate of 98-100%, 84% pass rate (compared to a 75% pass rate for 8 week classes) and 90% retention.

If applicable, describe the impact of any new resources (human, fiscal, etc) on the unit and/or action plan implementation.

- Fall 2022 VTAH hired a FT faculty for the program, this will help us make needed curriculum updates in 23-24
- No director for NDTE, currently only adjunct faculty are teaching in the program
- Increased staffing and support in the community clinic (this will also allow us to expand DENA and PTA program), we need additional student hours to reduce time in clinical rotations

Summary and Reflection

If you assess **OUTCOMES**, please confirm that the outcomes have been reviewed for accuracy. If you do not assess Outcomes, skip this question.

Data Reflection

Trends observed in program/service area's data.

In terms of labor market analysis, healthcare is projected to add more jobs than any other industry between 2019 and 2029. Specifically, healthcare will add roughly 2.4 million new jobs during this period, representing a 15% increase in employment. Many of the programs in allied health boast high retention rates and job placements in field of study (of 100%). The majority of Mesa's allied health programs, upon graduation, offer a livable wage in the career trained for.

Overall awards for HSPS have increased by 42% year over year, primarily in our AS awards.

Figure 1 Link: <https://platform.nuventive.com/viewDocument/xXUdX1P98VXd/Figure 1. Awards by Academic Year.docx>

Describe any equity gaps in the data. Are there differences and/or patterns observed by demographics (e.g.race/ethnicity, gender, age, etc.)

Our students have to deal with financial instability to achieve financial stability. This directly impacts students academically.

We still have equity gaps in many of our programs though we are working to reduce them. The 2 largest being underrepresented students in the 18-24 range (-28.6%) and males (-22.90%). Individual programs are also making an effort to close equity gaps. In Nutrition, the equity gap for African American students in spring 2021 was negative 12% and dropped to negative 9.2% in spring 2022. In 2022, this group of 121 students had a retention rate of 83.5% and success rate of 62.8%. Among Latin X students, there was a negative 6.2% in spring 2021 which dropped to negative 4.9% in fall 2021. In 2022, our group of 598 students had no equity gap and instead scored a positive 9.8%.

Summary and Reflection

Practice Reflection

Describe current practices your program/service area has engaged in that you believe impact the above data trends and equity gaps.

Faculty taking advantage of MOST cohorts and coaching to close equity gaps for online courses through course redesign. Two faculty will be part of the humanize community of practice in the summer and be reporting back in our HSPS leadership meetings for further actionable ideas for the group.

- Nutrition re-design to shorter stackable courses. The model should be reviewed to determine if we could utilize the design in other programs throughout HSPS.

What other factors (internal or external) might also impact the above data trends and equity gaps?

- There are several legislative changes occurring in Child development that will impact curriculum design with CAP 8 and Universal TK. Alignment will allow students to have more access and shorten the time necessary to receive certification and/or their AA.
- Students continue to prefer online classes in many areas regardless of other pedagogical approaches they may benefit from. When City and Miramar are offering the same class online, it is hard for us not to do the same.
