MESA COLLEGE

Program Review

Summary and Reflections with Unit Goals, Action Plans, and Updates

Leadership - Vice President of Instruction Office

Executive Summary

Describe the successes and challenges your unit has faced since the last comprehensive review.

To address the enrollment challenges and the impending end of hold harmless, the Vice President of Instruction assembled a cross-functional, 80-member enrollment management taskforce to draft a 3-year enrollment management plan. The taskforce established 7 workgroups to examine topics such as equity, environmental scan, scheduling tools, etc. Our goal is to offer an equity-infused stable schedule that both meets the needs of students and ensures the fiscal health of the institution.

Mesa has the highest efficiency in the SDCCD and for the past 3 years, under the Vice President of Instruction, the instructional budget has remained either balanced or has enjoyed a significant surplus. This is a far cry from 2019, when the adjunct budget for Mesa was \$3,000,000 in the red.

If applicable, describe any major curricular or service changes your unit has engaged in and the impact of those changes since the last comprehensive review.

These grants enable instruction and other services on campus to address the specific needs of affinity groups which are experiencing disproportionate impact in several KPIs, such as completion and success. The HSI grant is focusing on accelerated paths for Latinx and low-income students through STEM sequences. Among the many activities, we have a pilot to accelerate success in CHEM courses. Some of the early findings point to the importance of recency of math courses prior to enrolling in Chemistry.

The Vice President of Instruction serves on the statewide AB1111 taskforce as the CIO representative. She also serves on the CIO Board, which frequently meets with Chancellor Office representatives. Thus, she brings information to Mesa, SDCCD and the region to proactively address challenges and opportunities associated with the new laws. The biggest challenge of AB1705 is in mathematics. The department has been working with the dean and the VPI to ensure that we comply with requirements by summer 2023 and beyond.

If applicable, describe the impact of any new resources (human, fiscal, etc) on the unit and/or action plan implementation.

The Vice President of Instruction, in conjunction with the Dean of Math and Sciences and colleagues from across the institution, have crafted a plan to start the MESA program. This grant is timely. The goal of the implementation team is to enhance tutoring and other services for STEM students in compliance with AB1705 requirements.

Mesa College hired a full-time faculty member to teach Asian American Studies. In her first semester, the faculty member received 100% release time to develop curriculum and the program. Mesa is interested in hiring a position in Native American Studies.

If you assess OUTCOMES, please confirm that the outcomes have been reviewed for accuracy. If you do not assess Outcomes, skip this question.

Summary and Reflection

Data Reflection

Trends observed in program/service area's data.

Enrollment trends continue in an upward trajectory, despite the fact that we have not restored FTES or headcount back to 2019 levels. Nevertheless, we have reached the 5,000 FTES threshold for the main terms for the very first time since the start of the pandemic. Also, we have reached 14.14 efficiency, which is higher than in 2019, when the Vice President of Instruction arrived at Mesa.

Transfer remained pretty strong in the pandemic. Also, after a decline in the number of certificates of achievement awarded, Mesa saw a significant increase in the past academic year.

Describe any equity gaps in the data. Are there differences and/or patterns observed by demographics (e.g. race/ethnicity, gender, age, etc.)

Equity gaps continue to persist and affect mainly Latinx and African American students. Deans Council examines the data and uses it to guide its decision making in regards to the entire student journey in instruction.

Describe the discussion(s) that took place about the unit's learning outcomes assessment data.

Data regarding enrollment, student achievement, completion, and equity gaps is discussed at the weekly Deans Council meetings in order to provide direction for all of Instruction. The Deans Council meetings are attended by all instructional deans, a student services dean representative, the Academic Senate president and the Chair of Chairs.

Practice Reflection

Describe current practices your program/service area has engaged in that you believe impact the above data trends and equity gaps.

The Vice President of Instruction will continue to lead efforts to provide professional development opportunities to faculty. Among these are the Curriculum Equity and Excellence Review (CEER), Mesa's Online Success Team (MOST), etc.

The CTE unit has just developed a very innovative program to promote paid internship opportunities for all students, especially those in disproportionately impacted groups. The program, in its second semester, is enjoying great success. We will continue to expand internship opportunities for students beyond CTE.

What other factors (internal or external) might also impact the above data trends and equity gaps?

The strategic enrollment management planning process includes not just scheduling, but an examination of many practices at the college and district level that represent barriers for students, from using conflicting scheduling time blocks, to technology limitations in the registration process. Our goal is to identify and address these issues in conjunction with the district as appropriate.

Mid-Cycle Updates

Are there any edits or updates to the Executive Summary above?

2023-24

The enrollment management plan was submitted by the deadline to President's Cabinet, which approved it in May 2023. In fall 2023, President's Cabinet approved the formation of an enrollment management committee with broad representation from across campus, shared governance groups, etc. The committee spent the fall 2023 strategizing about which items to focus and implement in 23-24. Scheduling practices rose to the top of the priority list. The committee revised a draft of a scheduling practices survey that we had created as part of the taskforce work the year before and sent it to all deans and department chairs. We are in the process of analyzing the results and creating a guide of best scheduling practices to share with the campus.

In addition to the HSI grant, now the program activity manager for the AANAPISI grant, which was hired in January 2023, also reports to the VPI. The AANAPISI grant has increased the level of programing and data analysis to ensure that we meet all the grant objectives.

The VPI continues to serve as the Region X CIO representative on the California Community Colleges CIO Board. She also completed her work as part of the statewide AB1111 taskforce. Mesa College hired a MESA Center director, who started in December 2023, identified a space for the Center, and is planning to be fully functional in spring 2024.

Are there any edits or updates to the Data Reflection above?

All enrollment management KPIs are trending upwards. Most notably, Mesa College earned over 5,600 FTES, reached an efficiency close to 15, and saw over 19,000 headcount. We have superseded our FTES targets for every term, starting with summer 2023 and continuing with fall 2023 and intersession 2024.

23-24

All enrollment management KPIs are trending upwards. Most notably, Mesa College earned over 5,600 FTES, reached an efficiency close to 15, and saw over 19,000 headcount. We have superseded our FTES targets for every term, starting with summer 2023 and continuing with fall 2023 and intersession 2024.

Transfer remained strong in 2023. Mesa's VPI held conversations with our transfer partners, such as USD, to identify pathways for Mesa students to the transfer institutions.

Equity gaps continue to persist. Instruction has prioritized a wide range of equity centered and culturally responsive teaching activities designed to address equity gaps in student outcomes.

Are there any edits or updates to the Practice Reflection above?

23-24

As stated above, we hired a MESA Center director and are planning on launching the program in spring 2024. We continue to focus on AB1705 implementation and are currently discussing how it affects the Business and STEM paths, as many students, particularly students of color, have not taken pre-calculus in high school.

We submitted a Bachelor's degree proposal for Physical Therapy Assistant, which received conditional approval and is currently going through the intersegmental review process.

We continue to see a growing demand of Ethnic Studies courses. The AAPI faculty member we hired in spring 2023 continues to develop curriculum in that area. She submitted courses for area F approval, which were denied. She will resubmit the courses soon.

There are many initiatives coming our way, AB928, AB1111, etc. The VPI continues to participate in statewide conversations that lead the way to the implementation of these initiatives. This allows Mesa to be proactive in its implementation approach.

Summary and Reflection

Establish and Implement an Enrollment Management Plan.

Unit Goal: Establish and implement a 3-year student focused and equity centered enrollment management plan.

Goal Status: Active

Beginning Year: 2022 - 2023

Projected Completion Year: 2025 - 2026

Mapping

Mesa College Strategic Plan: Roadmap to Mesa2030: (X - Highlight the X to Align)

- Pathways and Partnerships - Objective 4: X
- Stewardship - Objective 3: X

Action Plans	Action Plan Update
