

SAN DIEGO
MESA COLLEGE

Program Review

Summary and Reflections with Unit Goals, Action Plans, and Updates

Student Services - Admissions/Records

Executive Summary

Describe the successes and challenges your unit has faced since the last comprehensive review.

The most significant challenges to the Admissions and Records program continues to be under staffing especially during peak registration periods. The hiring of the Admissions Supervisor has allowed the department to heal while transitioning. As a result, the office works more cohesively and collaboratively. The infusion of Project Assistants at the counter also brought a new face to the department and students and faculty benefited from the new style of service.

Historically, San Diego Mesa College provides multiple sessions throughout the year on average of 30 sessions per semester, but the number of sessions has increased to 112 during Spring, 77 during Summer and 84 during Fall. The Admissions and Records program provides all support services necessary to students, faculty and administrators.

We communicate via email with students and faculty and from these results we adjusted our information on the web and JIRA. Electronic communication has been integrated as one of the standard forms of communication and delivery of service; however, it does not meet everyone's needs, and therefore, we continue to be available in person and over the phone Monday through Thursday 8 a.m. to 6 p.m. and Friday, 8 a.m. to 12 noon. The pandemic has affected the public's mental health and well-being necessitating the program to continue working with the students and faculty on phone, email, JIRA and zoom as necessary. We aim to meet students and faculty needs as the program finds them coping with isolation and loneliness, job loss and financial instability, and illness and grief.

The department continues to work successfully with District Student Services on any changes necessary or system malfunctions that may impact students' registration negatively. Whenever necessary, students are accommodated in order to not lose priority registration. Special accommodations are also made for fall registration in order to accommodate students who completed prerequisites outside the district and to minimize the number of those students who would get dropped due to lack of meeting class prerequisites.

The implementation of Campus Solutions forced the use of Faculty Services improving our grade collection; however, the department continues to struggle census submissions and with some late grades; therefore, this goal is ongoing.

During the year the department provides support to multiple instructional programs classes in order to make successful progress towards their academic goals Retail Management, Work Based Learning, Mesa College Teacher Ed Program.

If applicable, describe any major curricular or service changes your unit has engaged in and the impact of those changes since the last comprehensive review.

This year the Residency program has had a variety of California legislative changes that impact the operations when adhering to new policies set forth by the state. Recently due to the conflicts in Ukraine and Afghanistan, we have had an increase in Ukrainian/Afghan refugees which has led to the state of California protections being given and which has allowed the college to grant a 1-year temporary residency to recently arrived refugees from these countries. Also, there were policy change impacts due to the COVID 19 pandemic, AB 1113 (Medina, Chapter 569, October 2021) added section 68120.3 to the Education Code), this section requires that any qualifying surviving spouse or child of a licensed physician, licensed nurse, or first responder, who died of COVID-19 during the COVID-19 state of emergency in California and was a California resident, shall be exempt from mandatory statewide tuition and fees, including nonresident tuition.

Summary and Reflection

Since the last comprehensive program review there were also AB-540 updates: A year's equivalence at a California Community College is either a minimum of 24 semester units of credit or 36 quarter units. For noncredit courses, a year's attendance is a minimum of 420 class hours per year (a semester is equivalent to a minimum of 210 hours and a quarter is equivalent to a minimum of 140 hours). Full-time attendance at a California adult school is a minimum of 420 hours of attendance for each school year.

Students are allowed three attempts of a non-repeatable class and for courses that are repeatable, students are allowed a maximum of three enrollments, including W grades. For the last two years, in collaboration with the Dean of Student Development, Dean of Athletics, Academic Counselor and Athletic Program Director, the department implemented an approval process for exercise science classes needed for intercollegiate sport students.

CCAP Changes: AB 288 2015-16, AB30-23019-20, AB-102/ effective January 1, 2023: removes the provision which prohibited an oversubscribed community college course or a course which has a wait list from being offered at the high school. Removes the 10% limit for full-time equivalent students claimed

Ed Code 76004: AB288, AB102:

- Seamless pathway.
- Agreements between college district, or governing board of charter schools and effective January 1, 2023, county offices of education.
- College courses typically held on the high school campus during the regular school day and can be closed to the general public.

If applicable, describe the impact of any new resources (human, fiscal, etc) on the unit and/or action plan implementation.

Practice Reflection

Describe current practices your program/service area has engaged in that you believe impact the above data trends and equity gaps.

The Admissions classified professionals, supervisor and director provide support to students with issues not only related to admissions and registration but also updating records, such as legal name and social security changes, California residency determination for tuition reasons. Admissions assist faculty with attendance and accounting reporting in the following programs: CCAP, ACP, Fast-Track, San Diego MET, Puente Project, Student Athletes, Allied Health, International Students, Cross Enrollment to SDSU and UCSD, Student Veterans, San Diego Promise, Kapwa, UMOJA, Honors, Retail Management and Financial Aid. Admissions provides support to instructional deans with petition to challenge and curriculum discrepancies in Campus Solutions. Our diverse team has had a greater impact with students and the community, as each team member brings their own experience, knowledge and skill when assisting students and collaborating with other departments.

What other factors (internal or external) might also impact the above data trends and equity gaps?

Admissions continues to adapt our services due to the impact Covid-19 has had on students and the return to campus. Although the number of in-person services has increased, Admissions continues to assist students online via zoom, email, JIRA and Ivy Chat as well as phone calls. Registration dates for summer and fall moved up this year, and students were able to register for both semesters as early as April/May, as opposed to previous semesters June/July. Additionally, drop for non-payment was enforced this summer. Our department had to adapt new practices to deal with registration and enrollment issues, student traffic and specially issues relating to drop due nonpayment. As a department, we participated in the campus wide call to action to contact students who would be affected by drop for non-payment, as well as targeting students with non-resident classification. In an effort to retain every student, we assisted by re-enrolling those students who had been dropped, or found other class alternatives.

Hire an SST and an SSA for the College and Career Access Pathways (CCAP) Program.

Unit Goal: Hire one Student Services Technician (SST) and one Student Services Assistant (SSA) classified positions. Currently, the work is getting accomplished through the support of the Admissions Supervisor, an SSA and project assistant. The hire of these two positions is necessary to meet the demand to increase the number of high school students participating in concurrent enrollment as early as 9th grade. These positions also provide the necessary support to meet the goals of the college to increase access in success while addressing barriers to program expansion.
