Deferred Action for Childhood Arrivals (DACA)
Fall 2017 President’s Cabinet Update
Former President Barack Obama launched the Deferred Action for Childhood Arrivals (DACA) Policy in 2012. The policy states that government will not deport those who meet certain criteria, including but not limited to:

- Children who arrived here before the age of 16 and are under 31 years of age on June 15, 2012
- Individuals who are in school or possess a high school diploma
- Applicants who have lived here for at least five years
- People who have not committed serious crimes

Meeting these criteria will allow undocumented residents to obtain a driver’s license and Social Security number and a 2 year work authorization.

On Tuesday, September 5, 2017 President Donald Trump rescinds DACA, gives Congress six months to take action.

UPDATE: DACA Memo from California Community Colleges Chancellor's Office

Dear DACA Students, All Students, Colleagues, and Friends:

The San Diego Community College District is deeply committed to the inclusion of all people, regardless of their race, ethnicity, heritage, national origin, immigration status, religion, age, gender, sexual orientation, gender identity, medical condition, or disability. We believe that America is a great and compassionate country and that our students and employees should be fully supported in that context.

One program in particular emphasizes our values of access and success for all students. This very special program, Deferred Action for Childhood Arrivals (DACA), has provided support to young people who were brought to this country as children, not under their own volition. It was established via executive order by the previous presidential administration to provide a fair and practical way for these young people to be treated. Most of these young people have only known the United States of America as their home and they have prospered in the many endeavors they have pursued in our great educational systems, including schools, community colleges, and universities. In our District, City, Mesa, and Miramar colleges, and Continuing Education areas, DACA students and are proud of them.

This morning, the President of the United States ordered the elimination of the DACA program, announcing that the administration will “initiate a wind down process,” thereby creating “a time period for Congress to act -- should it so choose.” We have heard that this will be a period of six months, but we need to confirm that, as well as the process Congress will follow. We will do whatever we can to restore this important program. Up-to-date information will be posted for students and employees, as we receive it at sdccd.edu.

DACA students are called "Dreamers" in view of their relationship to the DREAM Act, proposed legislation that would

TOMORROW: September 6

San Diego Community College District Chancellor's Statement on the Elimination of DACA

Today was a sad day in America when the Attorney General announced the Presidential decision to eliminate the Deferred Action for Childhood Arrivals (DACA) program, a program that provides support, especially educational opportunities, for young people who were brought to this country as children.

In the San Diego Community College District, those students are among the best and highest achieving students at City, Mesa, and Miramar Colleges, and Continuing Education. Nationally, many are earning graduate degrees and are already giving back to their communities through services, expertise, and taxes. This country is the only country they know and deporting them would be a horrible injustice. Our District, our Board of Trustees, our Colleges, our faculty and staff, and our student leaders will commit themselves today to provide whatever advocacy they can to Congress, urging our representatives to undo this reprehensible action and restore opportunity to these special young people, the Dreamers, who so richly deserve them.

San Diego DACA Dreamers facing nightmare after President Trump's DACA decision

Hosted by R.I.S.E. & Borderless Scholars
Resolution of the Board of Trustees
San Diego Community College District

The San Diego Community College District Board of Trustees stands in support of students from all backgrounds, cultures, immigration status, and religions.

WHEREAS, the San Diego Community College District (SDCCD) Board of Trustees, administration, faculty, and staff support and value the District's purpose and mission of providing high-quality educational opportunities for all students who can benefit from a higher education, without regard to race, ethnicity, heritage, national origin, immigration status, religion, age, gender, sexual orientation, gender identity, medical condition, or disability; and

WHEREAS, the District believes that neither California nor the United States of America will prosper without affording respect, opportunity, and support to its diverse population; and

WHEREAS, the goals of the District and its campuses are to educate students, to be inclusive and supportive of student diversity, and to provide an educational environment that protects students from pressures and intrusive actions that would disrupt or impede their education; and

WHEREAS, the District complies with federal and state laws and regulations, such as the Family Education Rights and Privacy Act (FERPA) that governs the privacy of student records, AB 540, and the California Dream Act, which exempt undocumented students from non-resident tuition and provide other benefits; and

WHEREAS, the District supports the Deferred Action for Childhood Arrivals program (DACA) that provides a temporary reprieve from deportation for students who were brought to this country as children and who are high achievers and on the path to success, and are deserving of being able to continue their studies;

NOW, THEREFORE, BE IT RESOLVED, that the SDCCD Board of Trustees does not support and vehemently disagrees with the President’s decision to terminate the DACA program in six months, putting nearly 800,000 young undocumented immigrants nationwide at risk of deportation; and

BE IT FURTHER RESOLVED, that the SDCCD Board of Trustees supports the continuation of the following District practices: the SDCCD will not (1) allow federal immigration officials on campus absent legal authority; (2) act on behalf of federal agencies to enforce immigration laws or aid in deportation; or, (3) share student records containing immigration or citizenship status with immigration officials, absent a court order or other legal authority, and, (4) College Police will not participate in any voluntary program of immigration enforcement; and

BE IT FURTHER RESOLVED, that the SDCCD Board of Trustees urges members of Congress to restore the DACA program and support and pass the Dream Act, a bill that would provide a path to legal status for undocumented young people who came to the country as children, in order to win back the values and ideals that made our country a beacon of hope and opportunity for the entire world.

Passed and adopted by the Board of Trustees of the San Diego Community College District in San Diego, California, this 14th day of September, 2017.

California Community Colleges Board of Governors Calls on Congress to Preserve DACA

San Jose, Calif. — The California community colleges board of governors, in a resolution adopted by unanimous vote, today called on Congress to immediately and permanently preserve the federal Deferred Action for Childhood Arrivals (DACA) program and further work toward comprehensive immigration reform. The board declared its unequivocal support for DACA recipients and other undocumented students in the California Community Colleges system.

The action is the latest in a series of measures the system has taken following the Trump Administration’s announced plans to eliminate the DACA program after a six-month pause allowing Congress to address the issue. Unless Congress acts, DACA benefits held by tens of thousands of students in the California Community Colleges system will begin to expire in March of 2018.

“Rescinding the DACA program punishes young people for actions over which they had no control,” said Board of Governors President Cecilia V. Espinosa. “We all benefit from this program, which enables hardworking members of society to contribute to their communities, serve in our armed forces and make better lives for themselves and their families at our colleges. Congress must step up sooner, rather than later, and do the right thing.”

The resolution unanimously adopted today at the Board of Governors meeting in Santa Ana cites studies showing that deporting all DACA recipients in the United States would cost the federal government $30 billion and cause $25 billion in economic losses over 10 years.

“The California community colleges board of governors is unwavering in its support and promotion of programs, initiatives and policies designed to instill values associated with community and inclusion,” states the resolution, which also notes California’s diversity is a critical source of innovation and industry that creates one of the largest economies in the world and an economic engine for the country.
Fall 2017 Immigration Information Sessions at San Diego Mesa College

Monday, September 25, 2017
2:30 - 4:00pm, 14-207

Friday, October 13, 2017
12:30 - 2:00pm, TBD

Do you have questions or concerns about recent legislation?
If so, please join us at one of our DACA Information Sessions.

This presentation will offer information on the status of DACA recipients after its rescission. It will also present information on legislative actions by the state of California to support the immigrant community.

Sessions will be led by an Immigration Attorney from Casa Cornelia Law Center

Earlier this week, California Legislative Leadership and Governor Brown announced a deal to provide $30 million to support California’s undocumented immigrants. The proposal provides $20 million in additional funding for immigration legal services under the One California program, and an additional $10 million in financial aid for Dreamers in the California Community Colleges, California State University and University of California systems. CSU will receive $2 million and UC will receive $1 million to support the existing Dream Loan Program. The California Community College Chancellor’s Office will receive $7 million. This funding will be made available to local colleges so that they can provide emergency financial aid resources to students affected by President Trump’s decision to rescind the DACA program. More details will be made available as enabling legislation and guidance becomes available.

SDCCD pledges support of students regardless of immigration status, religion

By San Diego Community College District
Office of Communications

The San Diego Community College District joined a growing number of colleges and universities around the country today when its Board of Trustees approved a resolution reaffirming support of its students. The resolution, passed unanimously, urges President Donald Trump to continue the Deferred Action for Childhood Arrivals (DACA) program, which allows undocumented immigrants brought to the United States as children to work and study in the country without fear of being deported. Former President Barack Obama launched the policy in 2012.

"The Board resolution reflects the values of the district, faculty, administrators, staff, and student leaders," said SDCCD Chancellor Constance M. Carroll. "The campus presidents and I have sent a message to students, sharing the Board resolution and assuring them that we will do everything in our power to support their educational opportunities despite the challenges that may be on the horizon.

Read the Board Resolution

The resolution affirms the district's commitment to its diverse student population, including those who may lack legal authorization to be in the country, commits to not cooperating with any federal effort aimed at creating a registry of individuals based on religion, national origin, race, or sexual orientation.
