UNDERLYING PRIORITIES

Capacity Building by Leveraging New Tools

- Vision to build partnerships and engage in action research
- Mitigation strategy to Budget uncertainty

User-Friendly Design for Maximum Impact

- Intentionality behind next generation dashboards
- Improved data accessibility

Course Outcomes Dashboard

This dashboard presents course completion rates, course success rates, and course GPA trends for all courses offered at Mesa College by academic year or term. Users can dive deeper to compare courses within the same program, disaggregate results by student demographics, and explore equity gaps across groups. This tool helps identify which students may be struggling and informs both instruction and student services in designing or improving programs to better support student success.

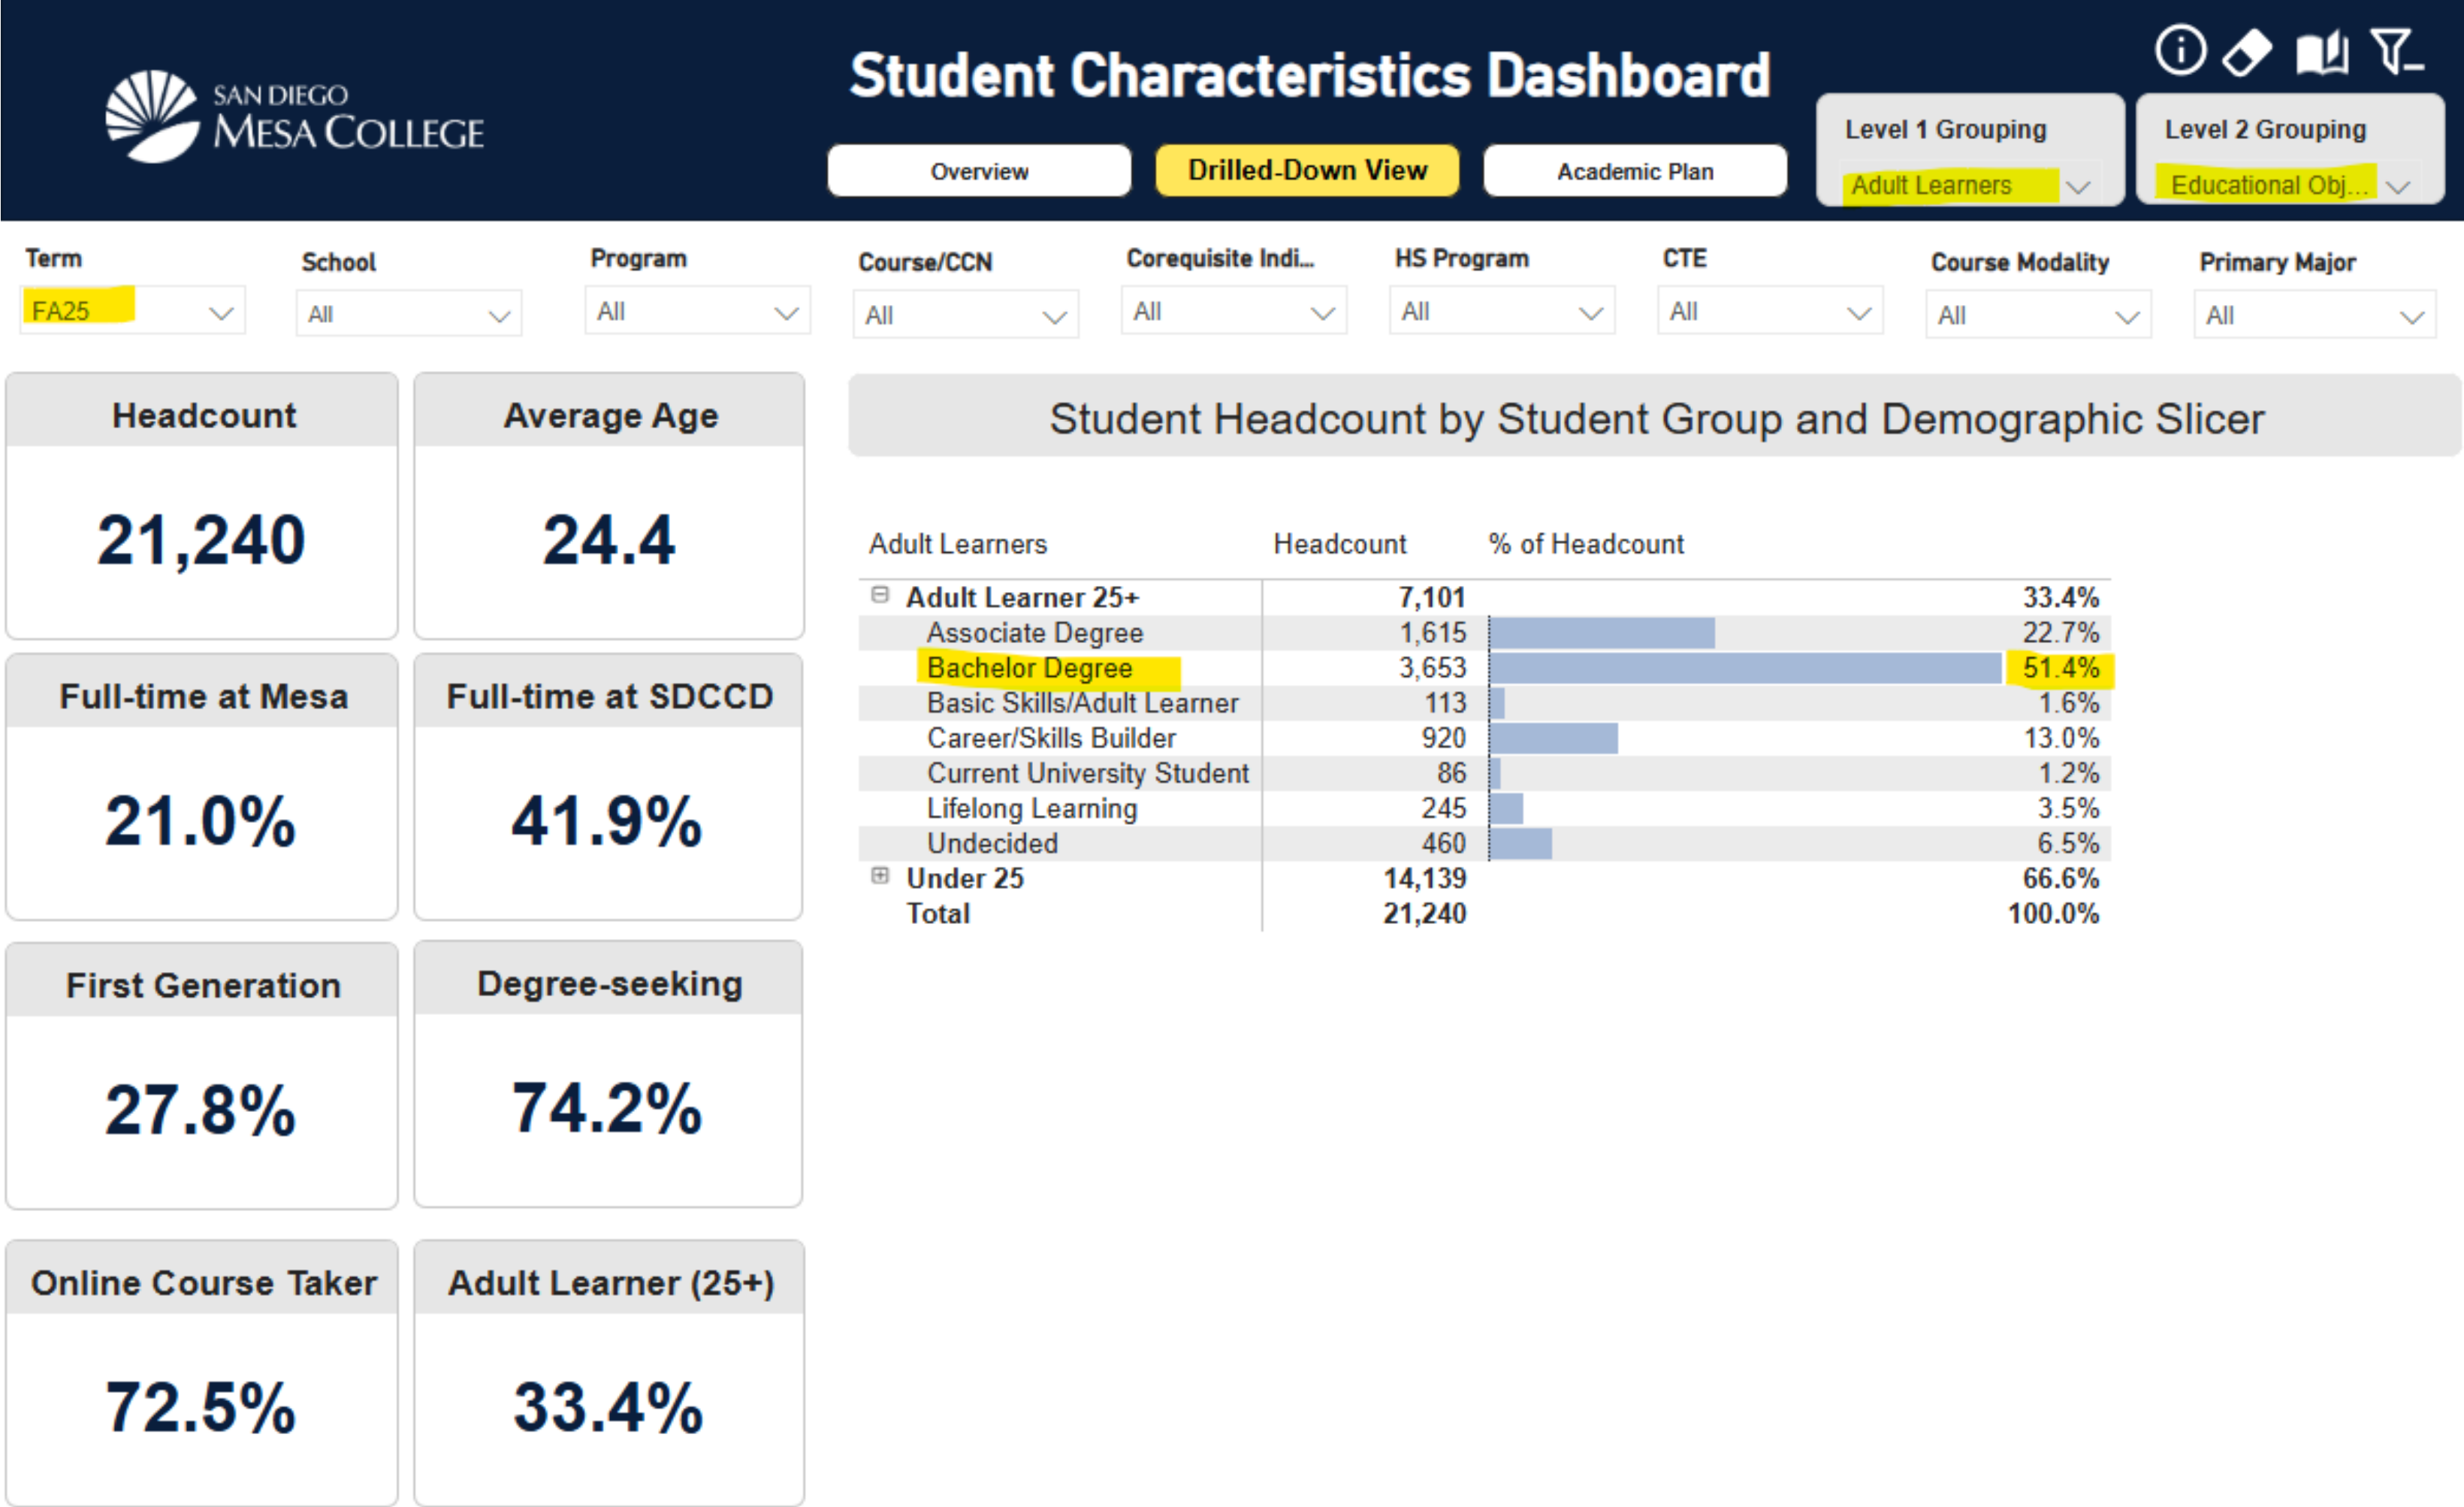

Note: Access requires SDCCD Single Sign-On (SSO) credentials.

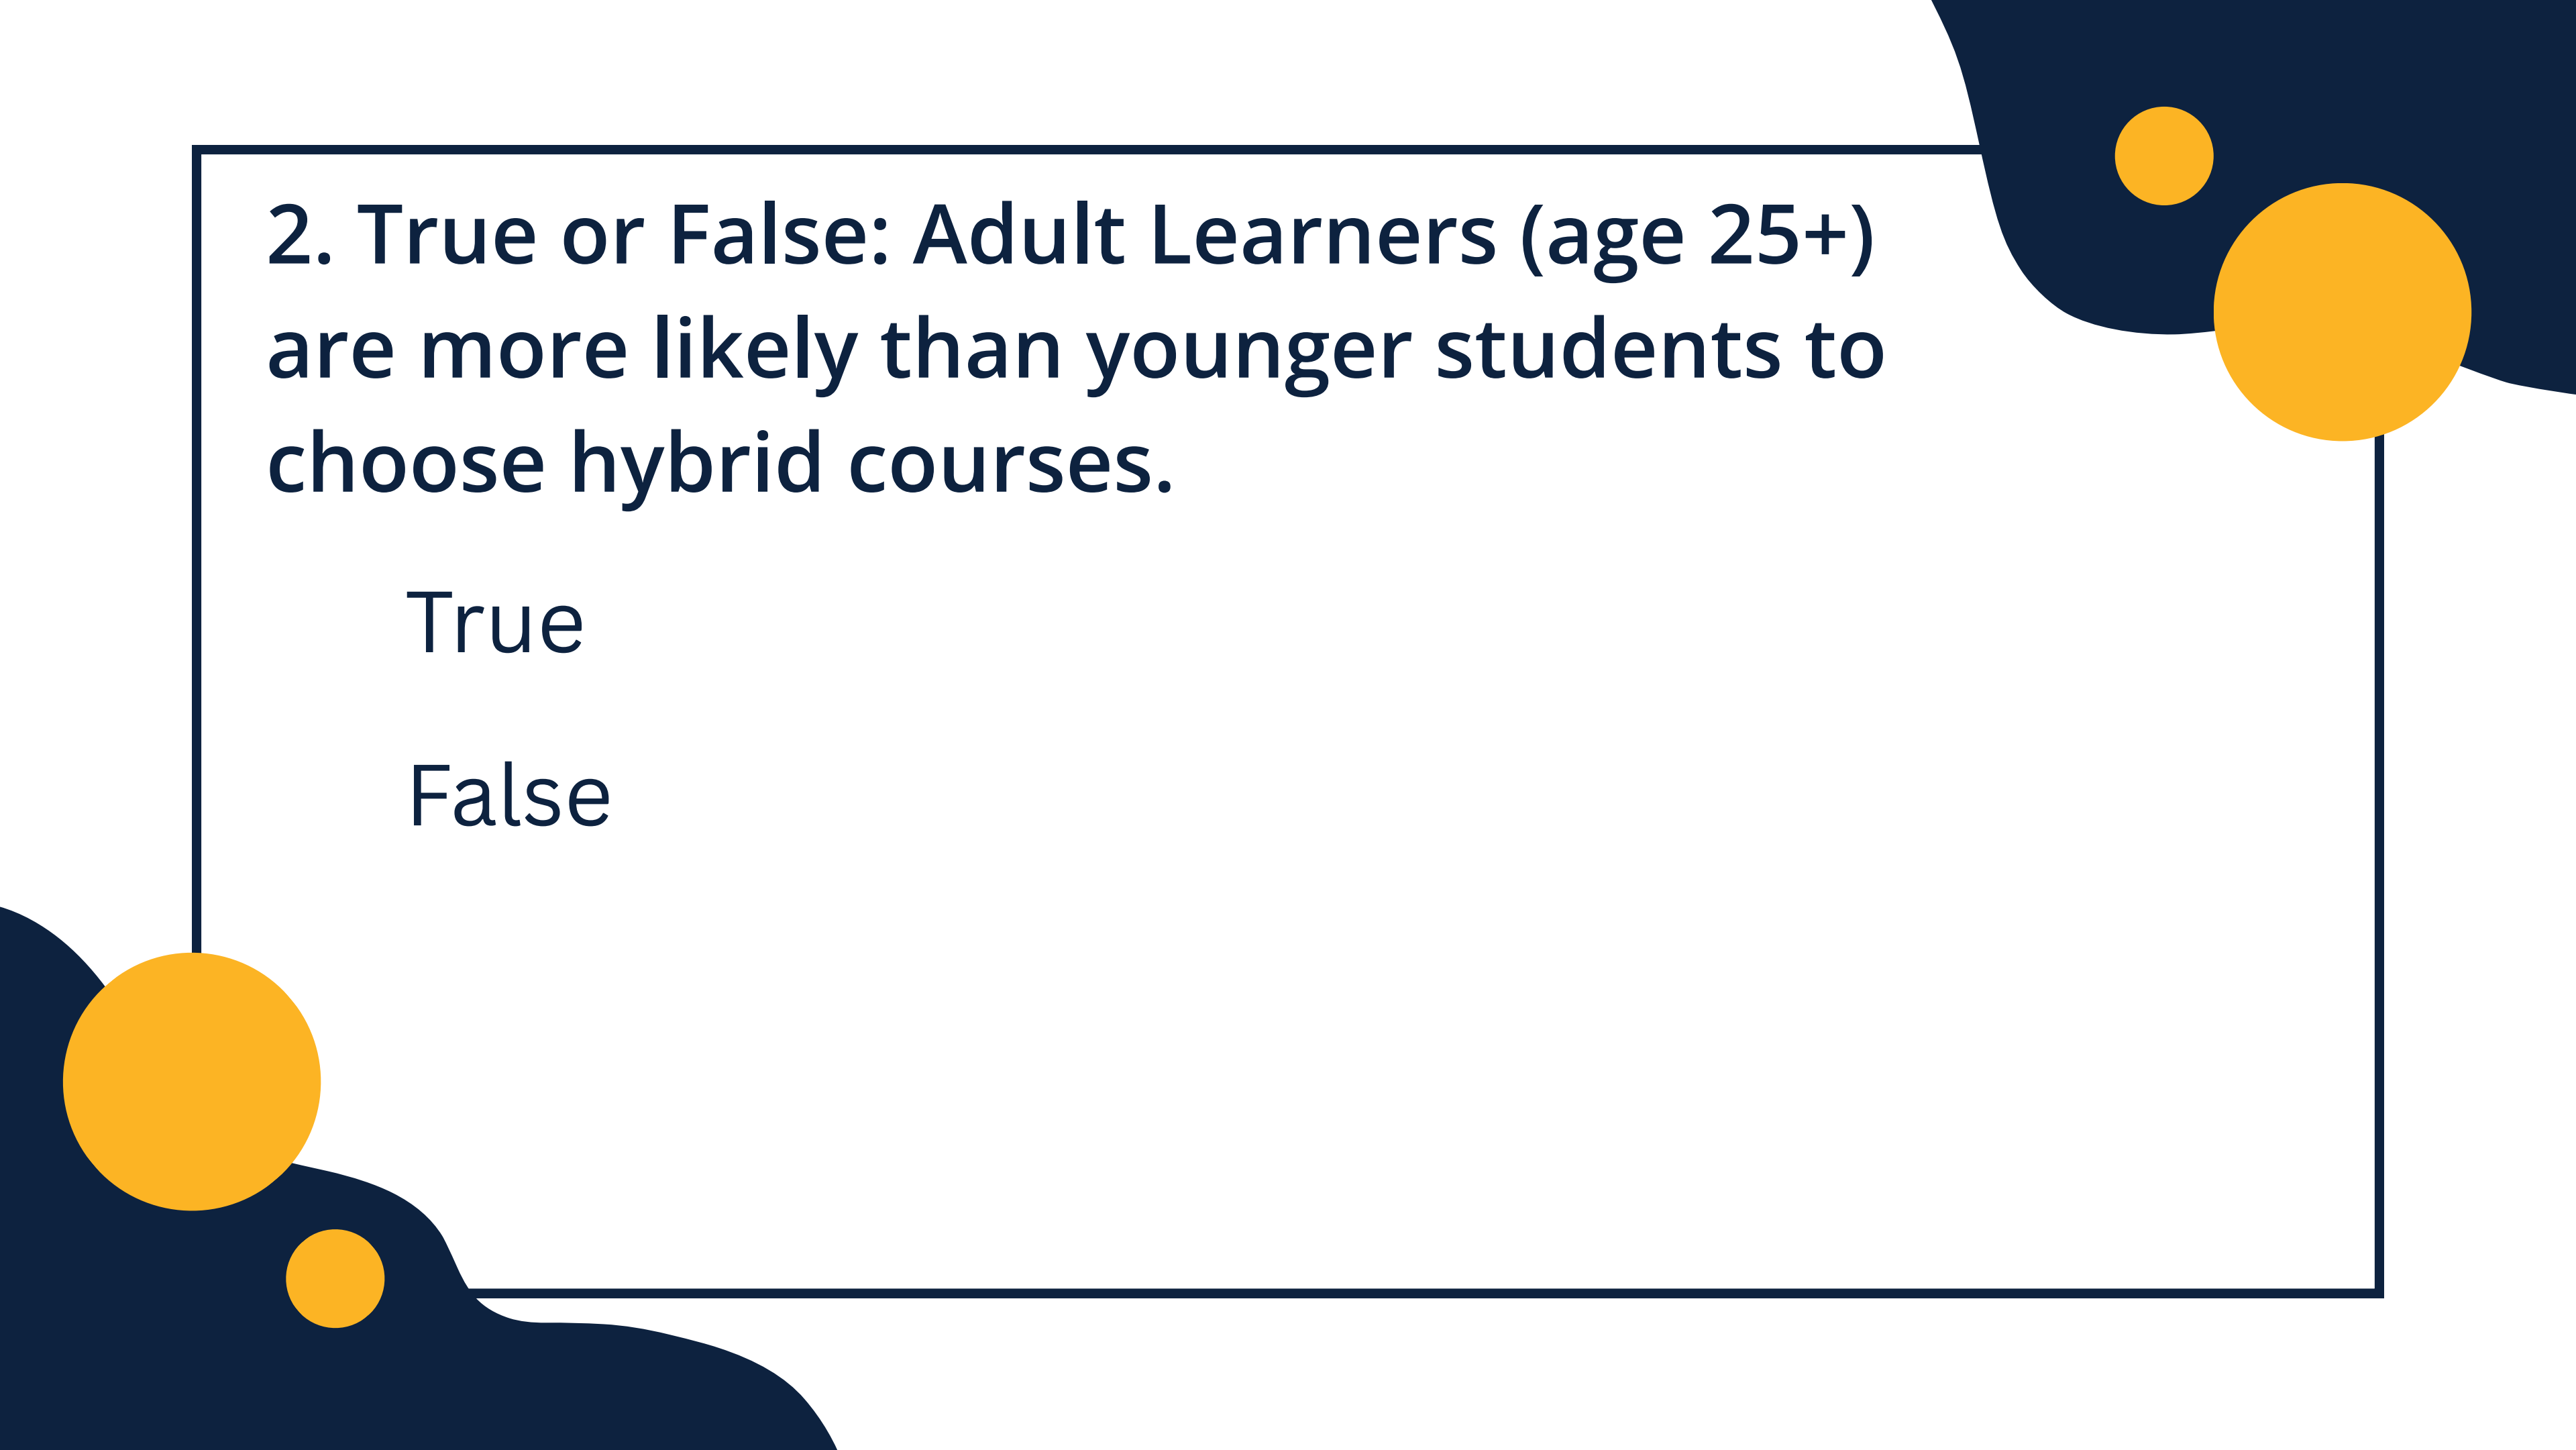

1. Among Mesa's adult learners (age 25+),
what is the top educational goal?

- a. Career/Skills Builder
- b. Lifelong Learning
- c. Associate Degree
