

Mesa's Neurodiagnostic Technology (NDTE) program has been approved by ABRET. We will be listed on their website as an approved program. Our students currently in the program will be eligible to sit for the national EEG exam using ABRET Pathway II.

MOST, Mesa's Online Success Team, was formed in October to continue supporting our faculty and students online with online course design, facilitation, and support! Here are a few updates from our MOST team:

Save the dates for MOST Online Course Design – Cohort #1: 2/28/22 - 3/26/22. This will be an asynchronous 4 week online course where we put you in the shoes of an online student. You'll get a refresher on online course design and come away with new ideas for engaging your online students. **Join interest list @ bit.ly/mostcohort-interest**

Toolkit: Stay tuned for the MOST Toolkit, a resource to help you design and facilitate equitable online courses, to be released before end of semester. MOST team will share that via email to DL once it's ready.

On-Ramp to Online Learning @ Mesa - We're in design phase, collaborating with Pathways Fellows on this. Peer Navigators will be joining our next planning meeting as well. This is exciting because it will be a way to support our students in a low-stakes learning environment where they'll find the support that they need to be successful online learners upfront. Our goal is to have this ready for Summer 2022 to support our Fall 2022 online learners at Mesa.

Coaching hours. Mesa Online Success Team members are available to support colleagues with online course design and Canvas questions. Thanks to the folks who have already stopped by! **See schedule @ bit.ly/mostcoaching**
