

Good Morning,

The Career Center received the information below. I thought it would be great to share with you. U.S. Department of Energy in Washington, DC is offering visiting STEM Faculty Research appointments in the Summer of 2018. Appointments are for 10 weeks during the summer term. They are also offering internship opportunities for community college students interested in STEM 2018 Summer Term.

Information for Faculty:

The Office of Science / US Department of Energy is pleased to announce paid research appointment opportunities for fulltime faculty from areas of Science, Technology, Engineering, and Mathematics (STEM) during the . Internship opportunities for STEM undergraduate or graduate students from the visiting faculty member's institution, made at the visiting faculty member's option, is available through an invitation process. **The application system for the Term Visiting Faculty Program (VFP) program is currently open, with all applications due by 05:00 PM Eastern Time on January 12, 2018.**

The Visiting Faculty Program (VFP) goal is to increase the research competitiveness of faculty members and students at institutions of higher education historically underrepresented in the research community in order to expand the workforce that addresses DOE mission areas. Through direct collaboration with research staff at DOE host laboratories, VFP appointments provide an opportunity for faculty and their students to develop skills applicable to programs at their home institutions; this helps increase the STEM workforce in DOE science mission areas at institutions historically under-represented within the DOE enterprise. Appointments are for 10 weeks during the Summer term, are open to US Citizens and US Lawful Permanent Residents, include a weekly stipend, reimbursement for one round trip domestic travel to the participant's host DOE laboratory, and possibilities for a housing allowance. More than 75 faculty appointments, and 50 student internships, are sponsored annually.

Application is made online. Full program information and descriptions, including links to the online application system, are available at:<http://science.energy.gov/wdts/vfp/>

Information for Students:

The Office of Science / US Department of Energy is pleased to announce paid internship opportunities for undergraduate students majoring in areas of Science, Technology, Engineering, and Mathematics (STEM) for the . **The application system for the Term Community College Internships (CCI) program is currently open, with all applications due by 05:00 PM Eastern Time on January 12, 2018.**

The Community College Internships (CCI) program places community college students as paid interns in technological activities at DOE national laboratories, working under the supervision of a laboratory technician or researcher. Appointments are for 10 weeks during the Summer term, are open to US Citizens and US Lawful Permanent Residents, include a weekly stipend, reimbursement for one round trip domestic travel to the participant's host DOE laboratory, and possibilities for a housing allowance. More than 100 internships are sponsored annually.

Application is made online. Full program information and descriptions, including links to the online application system, are available at: <http://science.energy.gov/wdts/ci/>
