

SAN DIEGO MESA COLLEGE
STEM Conexiones

ENGE200/250 Peer Mentor
Alexander (Alex) Ngo

ango001@sdccd.edu

My major is Aerospace Engineering.

I was born in Chicago, Illinois and lived there for about 10 years until moving to San Diego. I attended Mission Bay High School, graduating with an IB (International Baccalaureate) Diploma alongside my high school diploma.

I have attended San Diego Mesa College for 3 years now and I hope to transfer to San Diego State University. Since fall of 2019 I have worked as a Peer Mentor for Mesa. I have also worked an internship with Northrop Grumman on an AIML (Artificial Intelligence Machine Learning) project.

My main goal is to obtain a Ph.D. in an engineering field and do work designing complex machinery or vehicles.

As for hobbies, I usually spend my free time watching Movies and Anime or playing video games online with my close friends.
