Christian Gonzalez

cgonzalez001@sdccd.edu

My name is Christian Ruiz. I am planning on transferring to UCLA or UC Berkeley and majoring in aerospace engineering.

My career goal is to be a NASA engineer and be part of the project of colonizing Mars in the future.

In regard to on-campus involvement, I am also a scholarship officer at San Diego City College, and now I will have the honor of working at Mesa College. I speak Spanish and English, and I was born and raised in Mexico.
