

SAN DIEGO MESA COLLEGE  
STEM Conexiones

**PHYS195 Peer Mentor**  
**Savanna Beeson**

[sbeeson@sdccd.edu](mailto:sbeeson@sdccd.edu)

---

**Major/Academic/Career Goal:**

I hope to major in electrical engineering so I can work in sustainable energy.

**On-campus involvement:**

Being a Peer Mentor is my first on-campus involvement and I am very excited to be a part of this amazing group!

**Fun Fact:**

I am a competitive jump roper.

**Background:**

I grew up in San Diego and went to UCSB for two years where I majored in biology before moving back home. I moved to Lake Tahoe where I got to explore the outdoors by skiing every day in the winter and hiking every week in the summer. This love of the nature made me passionate about preserving our environment, which inspired me to want to work in the sustainable energy field. Now that I am back in San Diego, I love to surf and mountain bike.
