## Chemistry Peer Mentor Cori Bahnmiller

---

Hi! My name is Cori, I am a new peer mentor at Mesa College. I have been at Mesa for about 2 years and love it.

My major is biochemistry, it was actually my first chemistry class at Mesa that I realized I wanted to work in oncology research and development as a biochemist and researcher, Ph.D. here I come!

When I am not peer mentoring you will likely find me in the LRC doing homework or studying with the other peer mentors and tutors.

Aside from studying and homework I am an officer in the Women in STEM club. Off-campus I am a yoga teacher and have several years of experience teaching horseback riding lessons to children. I am not sure if this is a fun fact about me but I do have a cat that I adore, his name is Nubs and you will get to know him too if you come to see me in the LRC!
