STEM Core MATH Peer Mentor Jamie Anzai

Hi Everybody, my name is Jamie Anzai and I am a computer science major here at Mesa College.

I will be applying to transfer this fall and will hopefully be attending either Cal or UCSD for computer science after completing my second year at Mesa. I will be a Math peer mentor but if anybody has questions related to computer science or anything at all please feel free to ask!

During my first semester here at Mesa College, I was a member of the STEM Core program and am definitely looking forward to helping pass forward what my peer mentor did for me to the next year of students.

Aside from school, I work at a Korean Barbeque restaurant and enjoy powerlifting and playing video games as a hobby. I'm very excited for this opportunity and looking forward to working with everybody!
