Math Peer Mentor Karolina Cardenas

Hi, I'm Karolina Cardenas, majoring in Biochemistry. Starting Fall of 2023, I will be a Peer Mentor for Calculus I and Calculus II.

I had previously been a tutor for classmates in High School and Middle School for both math and chemistry.

Currently I am trying to complete an associate in chemistry to then transfer to UC Davis or UC Riverside. Long term my academic goal is to become a doctor, most likely specializing in neurology or oncology.

On the other hand, my personal goal is to try and make specialized healthcare more accessible.

A fun fact about myself is I love running, so far, I've run one 5K this year and I'm aiming to be able to run a marathon before transferring. I learn a lot through watching others understand and I'm looking forward to seeing all the different strategies everyone uses to learn.
