BIOL 210A Peer Mentor Kathleen Anne Evangelista

Hello! My name is Kathleen Anne Evangelista and I am excited to be a BIO 210A Peer Mentor.

I'm currently in my third semester at San Diego Mesa College. I am hoping to transfer to UC San Diego as a Neurobiology major by next fall. My goal is to receive an MD-PhD practicing as a Neurosurgeon.

I have an introverted nature but I am passionate about helping my friends/peers around me successfully achieve their personal and academic goals.

I was born in the Philippines and moved to California back in 2012. I love traveling and have visited 20 countries so far. I enjoy going to farmer's markets, reading books, skiing, and trying out new dessert shops.

I can't wait to meet you and work side by side on achieving your goals!
