PHYS180A Peer Mentor Nathan (Nate) Corbett

Hello, my name is Nathan (Nate) Corbett. My major is Marine Biology but I love everything science. I plan to transfer to UCSD and enter their Marine Science program. Some of my hobbies are camping, rock climbing, parkour, and swimming.

Because I love outdoors and science alike, my career goal is to do field research in environmental sciences. Another one of my hobbies is learning new languages. I am currently only fluent in English but I am also learning Spanish and Mandarin Chinese.

I also enjoy volunteering, I currently volunteer for a dog rescue. I don't have any on-campus involvement yet, though, I am excited to start as a peer mentor.
