

SAN DIEGO MESA COLLEGE

Equity, Excellence, Éxito

Engineering Peer Mentor Sam Brown

Hi everyone!

My name is Sam and I'm an Aerospace Engineering Major who loves all things related to space and rocketry.

I'm starting my second year at Mesa and planning to transfer to UC in 2024. From there, I hope to work anywhere in the space industry and eventually teach.

I was born and raised in San Diego and have always loved learning. I enjoy volunteering at the San Diego Food Bank and biking around the city in my free time. I'll also be working in the Tutoring Center on campus when I'm not in class or Peer Mentoring.
