II. Approval of Minutes May 11, 2022: Duckles/Gustin

III. Technonology Project Team Updates – ACP Descriptions + Icons + Maps:

Jennifer shared that the survey that was sent on the Icons, 50 campus-wide community responses were received. The color selected for the Icons was from the compatibility secondary color wheel and are meant to blend with the marketing primary colors. The Icons will launch this summer.

It was suggested for the Business & Entrepreneurship Icon to be modified by adding the female presence (woman/man shaking hands). It was requested that the Icons be represented individually by different color/s.

MPC voted on the Icons that had two options.

Updates on Maps and Web pages are still being updated and fine-tuned as necessary.

IV. ACP – Program Sorting Update:

Marisa shared that they are ensuring that the programs are sorted correctly to the different ACPs and gave the floor to Cynthia to explain that Victor's spreadsheet with the codes and that Ian's worksheet were looked at by different people to ensure that every program from the catalog were included. Victor was notified of discrepancies and of the missing degrees. Victor sent a list of the associate degrees that were not sorted to the deans and the deans are now sending them with the correct categories. The deadline to submit is on May 27. Now, we are waiting to hear back from Victor to complete the process. Once the spreadsheet is complete, we will bring it to MPC to show how it was sorted. Another discussion will be, who will be the keeper of the list. It is requested that Isabel be the final voice on the updating of the list. For now, Ian will be the keeper of the list and maintain the updating. This is posted in TEAMS if anyone is interested in looking at it, contact Ian. It was suggested since its curriculum related that the VPI or/and the Faculty CRC co-chair to be involved in the process. Howard has put in a proposal to create a subcommittee for CRC that will look at how Maps and ACPs connect; this committee will begin in the summer.

V. Student Success Teams Updates:

Ian shared that they met with the President Luster, she approves the Classified Professionals compensation for participation and to contact VP Legaspi. In preparations for this, the Leadership team will meet to see what work needs to be done in the summer. Larry will be the Equity coach Lead.

VI. Planning Ahead: Committee Leadership, Membership and Projects for 2022-2023:

Marisa shared the spreadsheet that highlights the current workgroups, leads, planned meetings, and planned projects for 2022-2023. The Guided Majors and Mapping members will have an update by the end of the month. This document is open for changes/updates/questions and for potential collaboration within groups. A suggestion was presented to have this document in the website.
