They will also go through Program Maps and participation in the Student Success teams.

The 90-day action plans for all the subgroups will start in the fall. The Orientation subgroup will be working on some data. Outreach group will work on the summer to hire hourlies to work in the fall for the "New Book of Sorts" with the office of Communications. Student Intake are working on rolling out the Newsletter. Career Planning is working on the final steps to finish the Canvas Shelly and are working with the Curriculum designer for CTE.
- d. PAIRS: Gina shared that the PAIRS group will not work over the summer and will send Toni a rough draft proposal of where they are headed for the fall.
- e. Continuing Education: Karla shared that the CE workgroup will be working with Pathways Communication to create content and will continue with the Student Survey.

#### **IV. Academic and Career Pathways: Marketing and Communication Plan for Rollout:**

The plan is to roll out the ACPs beyond the internal campus community. Does MPC request that they work with the Office of Communications to come up with a way to promote and market Pathways to a broader audience, and would it include student representation? Does the MPC want a few liaisons to do the work directly with the Office of Communications? Ian shared that they would like a clear description of what these different career and academic pathways are and he will work on those over the summer to bring to MPC for approval. Also, wants to give faculty another opportunity to make sure their degrees and certificates are properly sorted under their correct categories.

#### **V. Website Organization (GMMWG):**

Cynthia shared the Student Success Goals PDF file that students will find on the Mesa landing page. This will facilitate the student's decision-making by clicking on their goal of choice. More talk on this in the Fall semester.
