Grading for Equity – Standards Based Grading In ICT	\$4,134.68	"Grading for Equity" FIG goes off campus for Summer 2021 and invites K-14 and other 4-year Information and Communications Technology (ICT) instructors throughout the county to participate. We will read and discuss the book, "Grading for Equity" by Joe Feldman. Collaborative work on writing appropriate learning outcomes and rubrics to use with Standards Based Grading, as well as beginning construction of a course around Standards Based Grading. Current assessments used by instructors will be critically examined through an equity lens, and if these assessments are appropriate to the standards (outcomes) that were written. Further, new assessments to measure learning related to the learning outcomes written with be developed.
Mesa Journeys Project Assistant	\$5,000.00	Continuance of Mesa Journeys Project Assistant for technology improvements to the Mesa Journeys tool.
Credo Instruct	\$5,000.00	Credo Instruct is a resource for students who need research/evaluation instruction particularly in distance education courses. This is an essential resource for librarians and discipline faculty to enhance courses to provide research instruction and information literacy to students, especially online students, who currently do not have the ability to receive library instruction. Credo Instruct allows the library to bring information literacy and research learning modules and assessment on any online platform and has the added benefit of integrating seamlessly with Canvas.
