

## OCE Workgroup

### Outreach

- We had an opportunity to have Pavel (WBL) and Lara (TCE) present to the OAs on Internships and Career Services (focusing on handshake and the Career Compass). The presentation went really well and the OAs asked a number of questions. They feel confident in sharing this info.
- Viewbook continues to be looked at, a bid from a third vendor may be necessary. Outreach is working with Jennifer Kears on the process and content
- Presentations for students interested in coming to Mesa incorporating career exploration are now being used out at the high schools and events on campus!

### Mesa Journeys

- Mesa Journeys is continuing to build detailed lists for student support programs, student services departments, and academic support programs. We expect to be completed by this task by the end of April or early May.
- We are also working with the office of IE to launch another Mesa Journeys survey. We will be surveying our users to see the effectiveness of the tool and whether any new improvements are needed.

### Career Exploration

- Mesa College Career Services is now live on Canvas. You can enroll here: [sdccd.instructure.com/enroll/YYPGH4](https://sdccd.instructure.com/enroll/YYPGH4)
- Faculty can also import the shell from Canvas Commons to your course

### CRUISE/Orientation

- Alexi Balaguer has joined our group and is continuing the work that was started in developing a 2nd and 3rd year CRUISE experience as well as infusing career exploration into CRUISE.

### OCE RFA Update

- We are in the process of getting final approval for our RFA ESU project descriptions and will soon be sending them out to campus!
- OCE is looking to develop a tool that will bring all of OCEs work together in one place, helping students navigate the onboarding process as well as access and learn about other important opportunities during their time here at Mesa.
